Install the ONT

Notes: Additional items such as optical fiber patch cord that are not included with the ONT may be needed to complete your ONT installation.

Installation Steps:

- 1. Connect the optical fiber patch cord to the Optical socket at the bottom of your ONT. The connector of the fiber cord shall be SC/APC usually in green color
- 2. Connect the Ethernet cable to the LAN port on your computer and then to any of the LAN ports at the rear of your ONT.
- 3. Connect your telephone or fax machine to TEL port at the rear of ONT. The TEL port shall be specified by your service provider
- 4. Connect power adapter to the DC Power jack on the rear of your ONT and then plug the power adapter into an electrical wall outlet. Press the ON/OFF button on your ONT, this will then power on the ONT. Check the LEDs on your ONT. Please Refer to "Front Panel LEDs" section for more information.

Troubleshooting

Troubleshooting

- Make sure the power adapter is plugged in the electrical wall outlet • Check the power adapter is also plugged in the DC jack at the rear of the ONT
- Make sure the power On/Off button on the rear panel is set to ON status • If the ONT can't power on or often restart, please contact your ISP
- Plug out the Ethernet cable then plug in the Ethernet cable, wait one minute, check the problem again
- Power Off the ONT, then power On, wait five minutes, check the problem agair
- Check LED status, if LOS LED is flashing, or PON and Internet LED are Off, please check your optical fiber connection, or contact your ISP for help
- \bullet Check whether the WAN and 2.4G/5G Wi-Fi indicators on the ONT front
- panel are all ON or flashing Make sure your wireless device has connected the correct Wi-Fi SSID
- Modify the encryption type of Wi-Fi, check the problem again
- Modify the Wi-Fi SSID name and password, check the problem again
- Power Off the ONT then power On, wait five minutes, check the problem again • If all the above operations can't solve the problem, please contact your ISP

on--use of controls or adjustments or performance of procedures other than specified herein may result in hazardous radiation exposure.

l laser product. The product fulfils the requirements of IEC 60825-1:2014.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver. -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party.

Responsible for compliance could void the user's authority to operate this equipment. (Example- use only shielded interface cables when connecting to computer or peripheral devices).

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement:

The equipment complies with FCC Radiation exposure limits set forth for uncontrolled enviroment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
