To whom it may concern

8th December 2006

Dear Sir or Madam,

**Re: FCC ID KLS-G5-1, Confirmation Number: EA399587, Correspondence
Reference Number: 31935.**

With reference to your correspondence reference number: 31935 the following is confirmed:-

1. The US Coast Guard approval letter is contained in the covering letter, submitted through Add Attachments dated 8th December 2006.
2. The G5 EPIRB Bracket Assembly Numbers for the Category 1 (Auto Housing Assembly) and Category 2 (Manual Bracket Assembly) are 82-892 and 82-891 respectively. The numbers are also detailed on the E5/G5 EPIRB Family Tree drawings e.g. 82-800-XXXF, 82-801-XXXF and 82-802-XXXF, submitted through Add Attachments listed above.
3. The compliance with Section 80.1103(e) is also submitted through Add Attachments listed above, as an External Photograph label and also as a Drg.No.82-942-XXXD under Location Info.
4. It is confirmed that the exhibits submitted under the following headings should be marked Confidential: Parts List, Schematics and Operational Description. The Confidential documents are McMurdo Ltd copyright and contain proprietary owned intellectual property rights and confidential data. Unauthorised use, reproduction or issue to any third party is not permitted without prior written authority of McMurdo Ltd.
5. Please note, that the above FCC ID KLS-G5-1 is correct and the ID contained against the FCC Correspondence Reference Number: 31935 dated 31st Oct '06 e.g. KLSKLS-G5-1 is incorrect. The error occurred during my original application on 21st Sept.'06, which was pointed out by E-mail dated 21st Sept.'06 to Andrew Leimer. All G5 products, when FCC type approved, will contain FCC ID KLS-G5-1 on the product approval label 3. above.

It is also confirmed, that the above issues will be addressed separately using OET - Submit Correspondence.

Should there be any queries or require additional supporting type approval information, please do not hesitate to contact the undersigned.

Yours faithfully

Derek Carr
