Precautions

Be sure to follow all instructions, cautions, and warnings found within this guide. Failure to do so could cause the loss of data or damage to your computer. Failure to do so could also void your warranty, in which case Wacom shall have no responsibility to repair or replace the product.

Warning

Do not use the product in a facility control system that requires extremely high reliability; it may cause other electronic devices to malfunction, or other devices may cause the product to malfunction. Where use is prohibited, power off the product to prevent the possibility of it causing other electronic devices to malfunction. Wacom does not accept any liability for direct or consequential damages.

High Voltage. Do not open or disassemble the product. There is a risk of electrical shock when the casing is open. This will also void your warranty and Wacom shall have no responsibility to repair or replace the product.

If the LCD screen has been damaged, DO NOT touch any liquid that may be leaking from it; this liquid is an irritant. In case of contact with skin, eyes, or mouth, rinse immediately with running water for at least 15 minutes or more. If contact is made with the eyes or mouth, also consult a physician.

Prevent children from swallowing the pen tip. The pen tip may accidentally be pulled out if children are biting on them.

Caution

Do not use or store the product where:

- Temperature changes are severe or exceed specifications (e.g., outdoors or inside a vehicle).
- The product and pen are exposed to direct sunlight or heat from an appliance, or are exposed to water or any other kind of liquid.

Do not use the product in a dusty environment; this may damage the unit.

Do not disassemble the pen. This may cause the device to malfunction. In this case, Wacom shall have no responsibility to repair or replace the product.

Do not scratch the display screen. Avoid placing sharp objects on the display screen surface.

Avoid intensive shock or vibration to the product or the pen. Hitting or dropping the product may damage the display screen or other components.

Do not put heavy articles on the product or push against it with a strong force; This may damage the display screen.

Do not place heavy articles on the product cabling, repeatedly bend the cables sharply, or apply heavy stress to the cable connectors; this may damage the unit or cabling.

If the pen tip becomes sharp or angular, it may damage the coating on the display screen. Please replace the pen tip if necessary.

Do not expose the product to high voltage electrostatic discharges or to a buildup of an electrostatic charge on the LCD screen. This may result in a temporary blotching of the LCD monitor. If blotching occurs, leave the product's display on and the blotching should disappear within a few hours.

Note on using this product

Replacing the pen tip

For replacement of the pen tips please contact your Wacom Signature Solution Partner.

Note on use

When LCD panel is operated continuously for long period, a trace of electric charge remains near the electrode inside the LCD, and residual or "ghost" image of the previous image may be observed (Image persistence).

To avoid image persistence, Wacom recommends the use of a moving screen saver when the screen is turned on but idle.

Caring for your LCD signature pad

Keep the pen and LCD screen surface clean. Dust and dirt particles can stick to the pen and cause wear to the display screen surface. Regular cleaning will help prolong the life of your LCD screen surface and pen. Keep the tablet and pen in a clean, dry place and avoid extremes in temperature. Room temperature is best. The product and pen are not made to come apart. Taking apart the product will void your warranty.

Cleaning

To clean the product casing or the pen, use a soft, damp cloth; you can also dampen the cloth using a very mild soap diluted with water. Do not use paint thinner, benzene, alcohol, or other solvents to clean the unit casing or pen.

To clean the display screen, use an anti-static cloth or a slightly damp cloth. When cleaning, apply only a light amount of pressure to the display screen and do not make the surface wet. Do not use detergent to clean the display screen; this may damage the coating on the screen. Please note that damage of this kind is not covered by the manufacturer's warranty.

Limited warranty (Europe, Africa and Middle East)

WACOM warrants to you, as the initial purchaser, (hereinafter referred to as "you" or "the customer") that the product hardware will remain free from defects in materials and workmanship under normal use and service for a warranty period of THREE (3) YEARS,

commencing from the purchase date and provided that the product was unused at the time of purchase. Defects in wear parts (e.g. pen nibs, tablet surfaces and batteries) resulting from normal wear and tear are exempt from the warranty. Furthermore, WACOM warrants that the data carriers delivered with the product are free from defects in materials and workmanship under normal use for a period of SIX (6) MONTHS from the date of purchase.

If during the applicable warranty period the product, excluding any software, is discovered to be defective, it should be returned immediately to the place of purchase in its original packaging together with your name, address, and telephone number, a description of the problem, and a copy of the original receipt. The customer shall be liable for any possible damage or loss of the product during transit to the place of purchase for this purpose.

WACOM's sole obligation and entire liability under this warranty shall be, at WACOM's option, either the repair or the replacement of the product or parts thereof that prove defective and that were returned within the applicable warranty period.

WACOM does not warrant to repair or replace the product if: (a) the damage to the product results from accident, misuse, improper use, negligence or unauthorised alteration or repair; (b) the product was not handled or stored according to the instructions provided by WACOM; (c) the damage resulted from normal wear and tear of product parts; or d) the serial number affixed by WACOM has been removed or rendered unintelligible.

Any descriptions, drawings, specifications, samples, models, notifications or similar material provided in connection with the purchase of the product cannot be taken as an explicit guarantee that the product corresponds to or fulfils your requirements.

The warranty guaranteed by law remains unaffected. You can claim defects of the product in accordance with the relevant legal provisions.

WACOM shall only be liable for itself and its vicarious agents if a material contractual obligation has been culpably breached in a manner jeopardising the purpose of the contract or the damage is due to intentional acts or omissions or gross negligence. A material contractual obligation is an obligation which is essential to the proper performance of the contract on which the other party will typically rely. In case that the culpable infringement of such a material

contractual obligation is not due to intention or gross negligence, the liability of a party shall be limited to such damages being typical for the contract and which were reasonably foreseeable at the time of the closure of the contract. Where these Terms and Conditions preclude or limit liability, this also applies to the personal liability of the executive officers of the party concerned, its employees, agents and subcontractors. The provisions of the product liability law (Produkthaftungsgesetz) remain unaffected.

If, when a claim made under this warranty is checked, it emerges that it is outside the permitted time period or is not covered by the warranty or that the product is not defective, the customer will reimburse WACOM for associated costs.

This limited warranty shall apply if the registered office of the vendor is situated in the EU or Iceland, Norway, Jersey, Switzerland, Russia, the Ukraine, Croatia, Serbia, Tunisia, Turkey, Syria, Lebanon, Jordan, Israel, Egypt, the United Arab Emirates, Iran or South Africa. This warranty is subject to German law. However, the applicability of the United Nations Convention on Contracts for the International Sale of Goods is explicitly excluded. The city of Krefeld, Germany, is the sole place of jurisdiction for all claims arising from this contractual relationship and all disputes between the parties resulting from the formation, handling or termination of the contractual relationship, provided that the customer is a trader, a legal entity or fund under public law. The jurisdiction agreement shall also apply for customers who do not have a general place of jurisdiction in Germany. The jurisdiction agreement shall not apply if, due to legal provisions, a different sole place of jurisdiction must be established for the case.

Furthermore, WACOM is authorised to file a lawsuit against the headquarters of the customer.

Should one of the provisions of this limited warranty be or become void, the validity of the other provisions shall not be affected, in full or in part. Should a provision be invalid, the legally permissible regulation most closely resembling the invalid regulation shall apply in its place.
