

Robert,

The grant referenced above has been set aside. Please upload a copy of this request into the cover letter exhibit for the application.

You will also need to provide copies of the additional data needed to complete the review of this application.

Rich

Mr. Richard Fabina,

Please set aside the grant EA100864, for FCC ID: OVFKWC-2135, that was issued on 07/02/01. No phones have been sold or delivered under this grant. The 2135 phone was having receiver sensitivity problems. The 2135 phone's Printed Circuit Board (PCB) was modified to correct the receiver problem, but this modification caused the SAR profile to change. Data will be sent (after you reopen the EA100864 file), to show the radiated emissions and SAR performance of the new configuration for the 2135. If you have any questions, please call me at (858) 882-2661.

thanks,

Bob Scodellaro
