

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the disassembled EUT housing and board. The black plastic housing is on the left, and the white plastic lid is on the right. A green printed circuit board (PCB) is visible inside the housing. A black ruler with white markings is placed below the components for scale. The ruler shows measurements in millimeters (mm) and centimeters (cm).
Solder Board-Component View 1	 A photograph showing the solder board component. The green PCB is shown with various electronic components, including a microcontroller, resistors, and capacitors. A black ruler with white markings is placed below the component for scale. The ruler shows measurements in millimeters (mm) and centimeters (cm).

Solder Board-Component View 2	 A photograph showing a circular green printed circuit board (PCB) component mounted on a blue textured surface. The component has a central silver-colored pad with four small solder joints. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component is positioned between the 10 mm and 20 mm marks on the ruler.
Solder Board-Component View 3	 A photograph showing the same circular green PCB component from a different angle. The component is mounted on a blue textured surface. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component is positioned between the 10 mm and 20 mm marks on the ruler.

Solder Board-Component View 4	 A photograph showing a circular silver coin (CR2475 3V LITHIUM BATTERY) placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The coin is positioned near the 10 mm mark on the ruler.
Antenna View	 A photograph showing a green printed circuit board (PCB) with various electronic components, including a BT Antenna. The PCB is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). A red box highlights the BT Antenna component, and a red line points to it from the label "BT Antenna" in the top left corner of the image.
