Subject: Request for withholding from public disclosure

Gentlemen:

We, Intel Corporation would like to request that the schematics, block diagram, tune-up procedure and theory of operation submitted with this application for certification be withheld from public disclosure as per Section 0.459 of the FCC Rules. This request is made under the provisions of Section 0.457(d) of the FCC Rules and Section 552(b)(4) of the Freedom of Information Act. These sections authorize as a withholding from public inspection materials which would be privileged as a matter of law if retained by the person submitting them, and materials which would not customarily be released to the public by that person.

Furthermore, pursuant to Public Notice DA 04-1705 in order to comply with the marketing regulations in 47 CFR Part 2 Section 803 and the importation rules in 47 CFR Part 2 Section 1204, Intel Corporation requests the exhibits containing the setup photos, internal photos and external photos be withheld from public viewing for a short term limited time of 45 days from the date of the Grant of Equipment Authorization, due to marketing reasons and the timing of the press release.

If you have any questions, please do not to hesitate to contact us at 503-712-8077

Sincerely,

A handwritten signature in dark ink, appearing to read "Robert W. Paxman", written over a horizontal line.

Robert W. Paxman  
Sr. Compliance Engineer  
Intel Corporation
