RE: FCC Class II Permissive change for FCC ID: QDS-BRCM1082  
(Original Grant date: **6/17/2014**)  
Applicant: Broadcom Corporation

Dear Examiner,

This is to request a Class II permissive change for FCC ID: QDS-BRCM1082. There are no hardware or electrical modifications to the applicable modular transmitter.

The major change filed under this application is:

**Change #1:** Adding portable platforms Asus Model Number: NX500J, GX500J. These hosts have the same antenna type as originally approved with lower gain. Output powers are reduced in some case to meet the FCC SAR requirement.

Installation and operating requirements, detailing the restrictions, separation distances and antenna requirement for the modular conditions covered by the equipment authorization, are documented in the instructions provided to OEM integrators.

If you have any questions regarding this application, please feel free to contact me.

Sincerely yours,

A handwritten signature in black ink, appearing to read 'DL', is written over a horizontal line.
