Re: Change in identification of equipment

To Whom It May Concern:

This change in identification of equipment request applies to the original FCC ID: N7NHL7588 granted on 08/24/2015. The equipment bearing the modified identification (new FCC ID: PQG-PR34X-A) is electrically identical to the original equipment. Therefore, the original test results continue to be representative of and applicable to the equipment bearing the changed identification.

Sincerely,

Don Ferguson
