Warnings and Safety Information

WARNING

It is important that only authorized Itronix personnel attempt repairs on Itronix equipment as this might void any maintenance contract with your company. Unauthorized service personnel might be subject to shock hazard on some Itronix equipment if removal of protective covers is attempted.

Changes or modifications not expressly approved by the party responsible for compliance could void the users authority to operate the equipment.

Internal radio may have an individual FCC Identifier which is not applicable to this configuration. Only the FCC Identifier KBCIX260PLUSNL305 as shown on the label located at the bottom of the IX260+ Laptop PC is applicable. The IX260+ Laptop PC must not be co-located or operating in conjunction with any other antenna or transmitter than specified in the FCC Certification of the FCC ID: KBCIX260PLUSNL305. This FCC identifier does not include PAN and WAN Radio's.

Safety Information

This device contains a WLAN radio transmitter. When using the WLAN transmitter, a minimum separation distance of 20 cm must be maintained between the external swivel dipole antenna and all users/bystanders. The WLAN transmitter should be turned off before closing the LCD lid and carrying the Laptop PC in order to comply with FCC RF exposure requirements.

Vehicle-Mount Antenna Installation ☐

The (2) vehicle-mount antennas approved for use with this device are Itronix P/N: 46-0107-001 and P/N: 46-0107-002. The antenna must be professionally installed. The installer should refer to the antenna installation instructions supplied with the Itronix antennas.
