## 6 Finding the Service Area

While in the Stand By Mode, if the Service Indicator is displayed, then you are in the service area. You will be able to receive messages.

Service Area

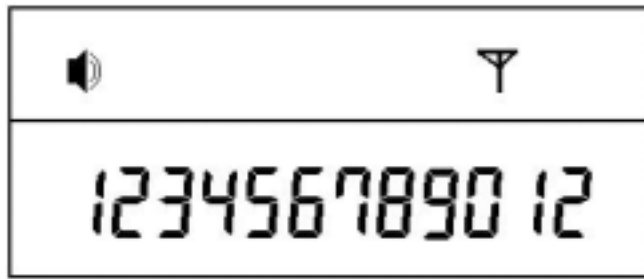

However, if LCD display does not show the Service Indicator, the pager is unable to receive any messages.

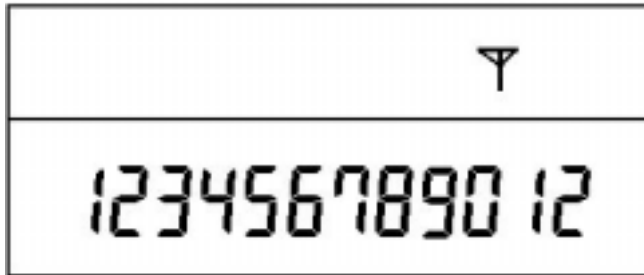

Service Area is out of reach

## 7. Message Indicator

When a new message is received, your pager will either alert or vibrate for 8 seconds ( and the backlight will go on. ) On the LCD, the Message Indicator will appear. You can push any button to stop the pager from continuing to alert or vibrate.

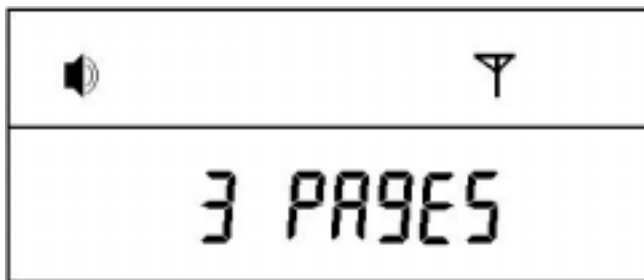

Message Indicator

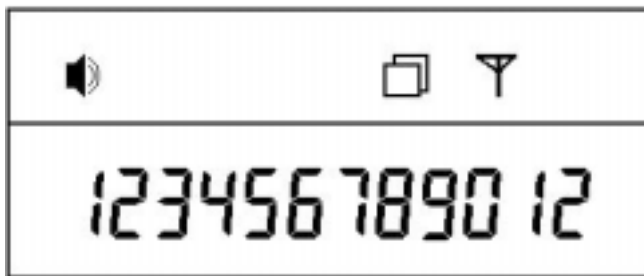

Sample Message

When a new message is received, a number will show up to indicate how many messages you have. This number contains all unread messages and periodically message alert will sound.

Three Unread Messages

When a Duplicate Message is detected, the Duplicate Message Indicator will appear.

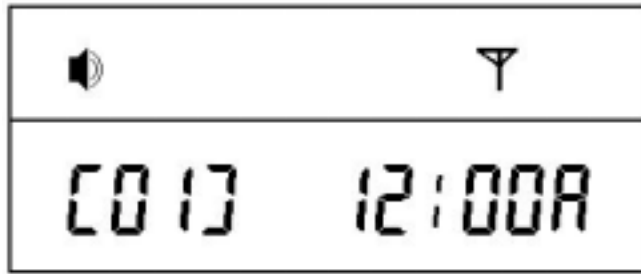

Duplicate Message Indicator

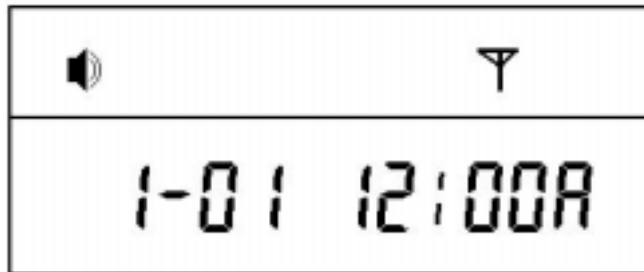

## 8. Reading Messages

From Stand By Mode, if the message is new, the following symbol is displayed, [ ]. The number inside the brackets indicate how many new messages you have received.

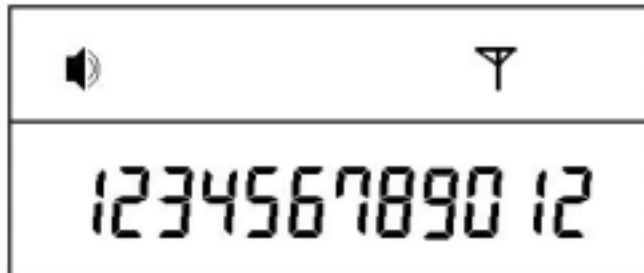

If no button is pressed for the first 16 seconds, the pager will automatically store the message.

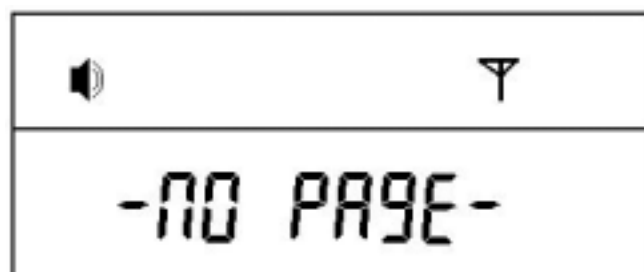

New Message  
("[01]" indicates quantity of new messages)  
Press the Select Button

Stored Message  
(Displays the time and date when the message was first received)  
Press the Select Button to Read

## 16. Care and Maintenance Instruction

The Exo Cyber pager is a durable and reliable product that can give years of dependable service; however, it is an electronic product. Water moisture, excessive heat, and extreme shock may damage the pager. Do not expose your pager to these conditions. Use only a 1.5V AAA battery.

If repair is required, contact the vendor from whom you have purchased the pager.

For questions pertaining to the functions and use of your Exo Cyber pagers, please call ISE USA, Inc. at 213-351-1592. For questions pertaining to your paging service, contact your paging service provider.

## 17. Regulatory Agency Compliance

The Exo Cyber pager complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

## 18. One Year Full Warranty Terms and Conditions

ISE USA, operating out of 3250 Wilshire Blvd. Suite# 702 Los Angeles, CA 90010, warrants Exo Cyber pagers against defects in material and workmanship under normal use and service for the period one year from the invoice date. In the unlikely event that a component should fail during its warranty period due to a defect in material or workmanship, Caravan will replace the entire pager with equal or greater valued item.

### Warranty Exclusions:

This limited warranty does not cover the repair of cracked, scratched, broken or modified plastics, or any other cosmetic damage. This warranty does not apply to repairs or replacements necessitated by any cause beyond the control of the seller. This includes, but is not limited to: malfunction defects or failures, which in the opinion of the seller, are caused by or are results of unauthorized service or replacement parts, and improper maintenance, operation accidents, modification or repair by the user, abuse, misuse, neglect and accidents, fire and rain or other acts of God. Normal wear and tear including, without limitation, is not covered under the warranty.

This device complies with part 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference.

Caution : Any changes or modifications in construction of this device which are not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
