5. Unplug the appliance during filling and cleaning

Parameters

- Cover
- Tank Cap
- Water Tank
- Water Filter
- Floater
- Touch Keys

- Mist Level Control button
- ON/OFF button — LED — Lighting button
- Pair key

Touch Keys

Usage Specifications:

LED Indicator

- Three output levels—The LED's will illuminate to reflect which level you have selected
  1) HIGH—Blue LED light: For fast humidifying
  2) MED—Green LED light: For everyday moisture control
  3) LOW—Red LED light: For minimum operation (ideal for night-time use)

- Plug into a standard electrical outlet. The Blue LED Display will turn on for 2 seconds then turn OFF. The Humidifier is in standby mode.

- Press the ON/OFF button once, the humidifier will start on high level.

Water Shortage Protection

- When the Tank is out of water, the red indicator will flash for 1 minute then the automatic safety shut-off will turn the unit OFF.

- The App will send a message when the water inside reaches low limit. (Need to be connected with home Wi-Fi)

Fig. 1   Fig. 2   Fig. 3

Set-up

- Make sure the humidifier is unplugged and in the OFF position.

- Put the Floater into the Water Filter like the Fig. 1 (Please make sure the side with label upward)

- Attach Tank Cap to the Water Filter by firmly turning clockwise until tight. (Fig. 3)

Filling The Water Tank

- Fill the Water Tank above with clean,cool tap water (Do not exceed the MAX water level, or it will have impact on the mist output)

- Cover the water tank lid.

- Plug the AC Adapter into Power Outlet and start it.

Cleaning

- Turn off and unplug the humidifier (Fig. a).

- Remove the water tank cover (Fig. b).

- Cleaning the inside of water tank (Fig. c).

CAUTION: When emptying the water reservoir on the base, make sure that the water is poured away from the Air Passage. If water is poured into the PCB it may damage the humidifier.

Fig. a   Fig. b   Fig. c

WARNING

- The humidifier is intended for indoor use only. Do not operate the humidifier outdoors.

- Always ensure that there is water in the water tank before operating the humidifier. Use only clean, cool water to fill the water tank.

- Place the humidifier on a smooth, level, waterproof surface that is elevated off the ground.

- Always handle the humidifier with dry hands to avoid electric shock.

- Keep out of reach of children. Close supervision is necessary when this appliance is used by or near children, elderly or disabled persons.

- Do not operate the humidifier with a damaged cord or plug. DO NOT use any attachments not provided with the unit.

- DO NOT attempt to repair or adjust the unit. Servicing must be performed by professional or qualified personnel.

- ALWAYS unplug and empty the water tank when not in use for a long period of time. ALWAYS unplug before removing, filling or emptying the water tank.

- Do not cover the mist outlet on the humidifier or insert objects into the mist outlet.

- Do not leave the humidifier in a closed room as the air could be-come saturated and leave condensation on walls or furniture.

1. Add device

1.1 Download Oittm Smart APP

Please scan the QR Code, or get Oittm Smart to download on App Store or Google play.

1.2 Download & Registration

- Scan the QR code to download "Oittm Smart" Application

- Enter the register/login interface, input the phone number for getting verification code to register or through other methods at the bottom of page connecting to related authorization interface to log in.

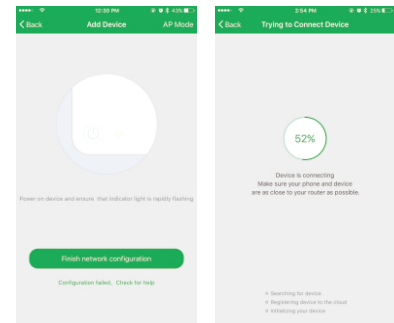

1.3 Easy Mode(Recommend)

Preparation: Device has connected with electricity, long press " ▽ " button for 5 seconds until indicator light quickly flashes, the application already stepped into "My Device" interface.
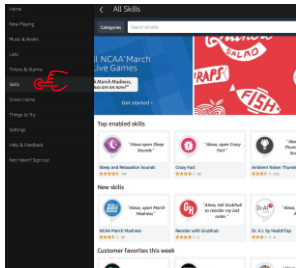

- Phone has connected to Wifi router and been able to connecard to Internet.

- Tap the icon "+" on the top right corner of "My Device", choose your device type, enter into "Add Device"

- Make sure the indicator light is flashing quickly, then tap the related button in application,

- Choose the local Wifi and enter the correct password, tap "Next".

- Wait for configuring successfully, then tap "Complete".

Attention: there is no Internet connected while the blue light flashing slowly.

2. Enable Smart Life skill in Alexa APP

Choose "Skills" in the options bar, and then search "Smart life" in the input box.

Select Smart life in the search results, and then click "Enable Skill".

Then input the user name and password of Oittm App that you had previously registered. Only support the account in the United States.

3. Control Humidifier Controller by Voice

After the above operation is successful,you can control the humidifier via Echo.

3.1 Discover devices

Firstly, you need to say to Echo:

Echo(or Alexa), discover my devices.

Echo will start to find the devices which is added in Smart life APP, which will take about 20 seconds, then it will tell you the result.
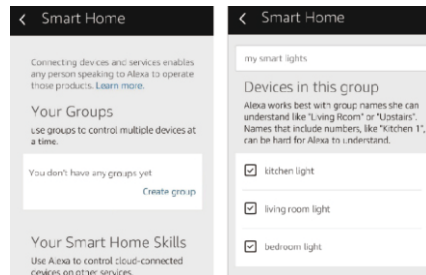

You can also click "Discover devices" in Alexa APP, then it will show the devices that found successfully.

3.2 Control devices by voice

Attention: The name of the device must be consistent with the addition of Smart life app.

You can also group the Humidifier and give instructions to control them together.

Attention:
Echo is one of the wake-up names, which can be any of these three names(Settings): Alexa, Echo, Amazon

3.3 Support Skill list

You can control devices by instructions like these:

•)) Alexa(or echo), turn on the humidifier
     Alexa(or echo), turn off the humidifier

4. IFTTT - Setup and Usage

Get Started: How to connect Oittm product to IFTTT?

Step 1.
Visit the IFTTT official website on your PC and sign in with your IFTTT account.
Note: You can also use IFTTT app and follow similar steps to connect your device to the IFTTT. In this FAQ we take the website setting method for example.

Step 2.
"Search" for "Smart Life", and then click "Smart Life" service.

Step 3.
Click "Connect", then login your Smart Life ID and then tap "Link Now". (The Smart Life ID is same with Oittm Smart App ID)

Step 4.
Successfully connect your IFTTT account to your Smart Life ID. You are ready to enjoy the IFTTT service of Oittm products now.
Instructions: 2 methods to use IFTTT with Oittm products.

Method 1: On Smart Life service page, choose an existing Applet you need, turn on it and then finish the configuration.

Method 2: Create a new Applet on your own.
Click "My Applets" at the top and then click "New Applet" at the right top corner of the webpage to create a new Applet.
Step 1. Create a Trigger.
Tap "this" to choose a Trigger. You can search for "Weather Underground" to choose a Trigger.

We select "Sunset" as the Trigger.

Step 2. Create an Action.
Tap "that" to choose an Action. You can search for "smart life" to choose a Smart Life Action.

We select "Turn on" of Oittm Humidifier-SH01 as the Action in this case.

Step 3.
New Applet "If sunset, then turn on Oittm Humidifier-SH01" is created as a result.
Note:
The Smart Life service can only works when create an action. You can't use the "Smart Life"as a Trigger.
