“智由说”说明书

使用指南

一、蓝牙设备外观及功能指示图

图 1

操控键: 语音操控键, 实现语音转文字、翻译。
充电指示灯: 充电状态, 充电时亮红灯为充电状态, 充满绿灯亮。
充电顶针: 磁吸充电功能, 注意充电时磁吸的方向。
复位键: 复位断电功能, 按复位重启本机。
蓝牙指示灯: 显示设备状态。

二、产品使用流程

1、连接蓝牙设备: 蓝牙设备需配合“智由说”应用使用。
如果蓝牙设备处在休眠模式, 需要按操控键进行唤醒, 此时会蓝灯闪烁; 开启手机蓝牙, 进入蓝牙设备列表界面找到“Smart voice”点击进行蓝牙配对和连接, 连接上后蓝灯会连闪三下, 手机

上显示蓝牙设备已连接。
2、首先在应用市场搜索、下载并安装“智由说”。

目前支持的应用市场如下:
华为、OPPP, VIVO, 腾讯应用宝, 谷歌, 苹果等应用市场, 其它应用商店后续开通。
可以直接用微信扫二维码, 前往下载安装:
安卓手机扫描的二维码:

苹果 iOS 扫描的二维码

3、语种设置: 打开手机安装好的“智由说”应用(如图2), 通过点击左侧按钮“普通话”选择并设置识别语种, 点击右侧按钮“英语(美国)”设置翻译的目标语种, 目前有100多个语种可供选择。

图 2

4、语音输入: 退出“智由说”应用后进入第三方应用, 如: 短信, 微信, QQ, 邮件, 备忘录等, 点击文本输入框然后按住蓝牙设备的操控键, 对准手机说出您要输入的内容, 说完后松开, 立即就会出现文字, 效果如图 3。

图 3

5、语音转译: 打开“智由说”应用, 打开翻译开关, 如下图: 按住蓝牙设备的操控键后, 说出您要表达的意思后, 手机自动把翻译出来的内容播报出来。

图 4

6、休眠: 设备 10 分钟内不操作进入休眠状态, 按操控键一次唤醒设备, 设备会自动连接之前的手机, “智由说”应用能自动恢复工作(如果“智由说”应用无法恢复正常工作, 需要再次手动打开)。

图 5

7、语音播报: 打开“智由说”应用, 打开翻译开关, 如下图所示: 按住蓝牙设备的操控键后, 说出您要表达的意思后, 手机自动把翻译出来的内容播报出来。

把“只显示译文”打开那么只显示翻译出来的内容。**注意: 需要把翻译打开才能打开“只显示译文”功能**
9、打开显示悬浮窗功能:
手机识别出来说话的内容以文字形式显示手机下方, 如图所示:

10、打开应用“智由说”底部的功能, 界面如图所示:

图 6

11、语言自动翻译功能: 聊天工具对方发过来英语或者其他国家的语言, 长按文字内容直到提示复制的窗口弹出来

红色的翻译按钮 代表红色字体的语言
蓝色的翻译按钮 代表蓝色字体的语言
翻译案例: 普通话翻译成英语, 手指按住红色的翻译按钮, 嘴巴对着手机说普通话, 完毕松开手指即可, APP 会自动翻译成英语并且读出来。

12、语言的选择: 点击语言框弹出语言选择界面

图 7

13、点击复制: 然后切换到“智由说”APP 首页界面, 复制的内容自动录入“智由说”文字内容显示界面, 该内容自动翻译成目标语言并且播报出来, 例如: 客户发来英语点击复制, 切换到“智由说”应用自动翻译成目标语言并且播报出来, 切换目

图 8

源语言是录入手机的语言, 目标语言是翻译出来的语言, 可以轻松做出选择, 语言共计 109 种支持使用

图 9

14、小米, OPPO, VIVO 等品牌手机, 以小米手机为例, 先打开设置, 找到进入

目标语言可以翻译成不同国家的语言, 109 个语言支持选择

15、打开百度输入法并设置打开。

图 10

16、低电量报警: 低电量报警提醒, 低电下红灯会闪烁, 提示需要充电, 充电时, 充电状态亮红灯, 充满后亮绿灯。

17、反应速度慢, 请检查 4G 网络, 是否良好。

18、语音输入转文字时出现重复语句, 解决方案: 安装推荐 * 百度输入法 * 配合使用, 使用会更加流畅。

图 11

19、安装方式: 1. 为更方便便捷打开和使用手机应用 APP “智由说”, 应用安装完成之后长按“智由说”图标, 然后下拉到手机显示屏幕最下方快捷导航栏

20、温馨提醒: 1. 为更方便便捷打开和使用手机应用 APP “智由说”, 应用安装完成之后长按“智由说”图标, 然后下拉到手机显示屏幕最下方快捷导航栏

21、温馨提醒: 1. 为更方便便捷打开和使用手机应用 APP “智由说”, 应用安装完成之后长按“智由说”图标, 然后下拉到手机显示屏幕最下方快捷导航栏

Smart Talkie Voice Input & Translation

Use of guidelines

1. Appearance and Functions

Figure 11

Control key: Hold the voice control key to speak, then the speech will be converted to text in original language or translated language per your choice.
Charging indicator: red light for charging state, blue light means full charged.
Charging thimble: magnetic suction charging function, pay attention to the direction of magnetic absorption when charging.
Reset key: reset power off function, short press reset hole to restart this device.
Bluetooth indicator: Short press the control key to turn on the Bluetooth of the device, the blue light will be twinkling.

2. Product usage process

2.1 Connect Bluetooth device: Bluetooth device should be used with “Free talk” application which

can be downloaded from Google market or Apple Store.
If the Bluetooth device is in standby mode, you need to press the control key to wake up, the blue light will flicker; turn on the phone Bluetooth, enter the Bluetooth device list interface to find “Smart voice” click for Bluetooth pairing and connection. The blue light will flicker quickly for 3 times which means the Bluetooth is connected with the phone.

2.2 Search, download, and install the “Free Talk” App from the Google market or Apple store.

For Apple IOS:

2.3 language settings: open the “Free talk” application installed on the phone (figure 2), select and set the recognized language by clicking the left button “Chinese”, and click the right button “English (USA)” to set the target language for translation. There are currently more than 100 languages to choose from.

Figure 22

2.4 voice input: exit the application and enter the third party application, such as SMS, WeChat, QQ, email, memo, skype, Whatsapp and so on, click the text input cursor, then press and hold the Bluetooth device control key and start to talk, you can release the control key until you finish the talking. It's better to talk within 1 min for each time to have higher accuracy. Example is as shown in figure 3.

2.5 voice translation: turn on the “Free Talk” application, turn on the translation switch, as shown below (Grey button means turn off):
Then hold the control key of the Bluetooth device, say what you want to say and release the button until you finished. The text box appears in the language you speak and the translated text result immediately.
See example below:

Figure 3

2.6 Standby mode: the device will be in standby mode if no operation in 10 minutes. Short press the control key to wake up the device, the device will automatically connect to the previous phone. “Free Talk” application can not return to work, you need to turn on the app manually.

Figure 4

2.7 Face to Face Voice translation function.
2.8 Voice broadcast: turn on the application, turn on the broadcast switch as below:
Then hold the control key of the Bluetooth device, say what you want to say, release the control key after your talking (suggested within 1 min for each time), then the mobile phone will automatically broadcast the translated content.

2.9 1 Click the button on the app as below:
Then you will see:

2.9 2 Language selection: click on the language box pop up the language selection interface and choose. See example below:

图 7

2.9 3 Please note there has source language (your speaking language) and target language (translated results) as below:
