

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup	 A photograph showing a conducted emission test setup. On the left, a wooden table holds a spectrum analyzer displaying a graph. To its right, on the floor, is a power supply unit with various cables connected. Further right, another wooden table holds a small electronic device under test, with a power cord plugged into a wall outlet.
Radiation Emission View (Below 30MHz)	 A photograph of a radiation emission test chamber. The interior walls are lined with white, square-shaped electromagnetic absorbers. A yellow test fixture is positioned in the center of the chamber. A black metal frame stands in the foreground, and a cylindrical metal component is visible on the floor.

**Radiation Emission
View (30MHz to 1GHz)**
