1

START UP

To set the drive,
download "TaHoma pro" application
available on stores

DRIVE SETTING

Once the "TaHoma pro" application is downloaded,
open the app and follow the instructions
to set the drive.

2

USE

This drive does not require any maintenance operation.

UP

STOP

MY

DOWN

3

DRIVE RESETTING

⚠ This reset deletes all programmed control points, all sensors, all end limit settings and resets the favourite (my) position for the drive.

INSTRUCTIONS TO BE RESPECTED

These instructions apply to all Sonesse 40 Zigbee drive, the different versions of which are available in the current catalogue.

FIELD OF APPLICATION

The Sonesse 40 drives are designed to motorise all types of:

- Interior vertical blinds which front rail moves solely by gravity with a mass less than 15 kg.
- Tiltable venetian blinds which bottom lath can be lifted at least by 4 cm when an upward force of 150 N is applied to the bottom lath positioned at 16 cm from the fully extended position.

LIABILITY

Please read these instructions carefully before installing and using the drive. In addition to following the instructions given in this guide, the instructions detailed in the attached **Safety instructions** document must also be observed.

The drive must be installed by a motorisation and home automation professional, according to instructions from Somfy and the regulations applicable in the country in which it is commissioned. It is prohibited to use the drive outside the field of application described above. Such use, and any failure to comply with the instructions given in this guide and in the attached **Safety instructions** document, absolves Somfy of any liability and invalidates the warranty.

The installer must inform its customers of the operating and maintenance conditions for the drive and must provide them with the instructions for use and maintenance, and the attached **Safety instructions** document, after installing the drive. Any After-Sales Service operation on the drive must be performed by a motorisation and home automation professional.

If in doubt when installing the drive, or to obtain additional information, contact a Somfy adviser or go to the website www.somfy.com.

SAFETY INSTRUCTIONS FOR WIRING

Cables which pass through a metal wall must be protected and isolated using a sheath or sleeve.

Attach cables to prevent any contact with moving parts.

If the drive is used outdoors, and if the power supply cable is a type H05-VVF cable, the cable should be installed in a UV-resistant duct, e.g. under a gland.

Leave the drive power supply cable accessible: the product must be easily replaceable.

Always make a loop in the power supply cable to prevent water entering the drive.

CAUTION

The product is intended for being supplied by Class II output of an external power supply. Do not use an extension cord. If the power supply cord is too short, have a qualified electrician install an outlet near the motorised product.

The drive must be installed by a professionally qualified person (electrical specialist according to DIN VDE 1000-10) for drives and automations in the building services sector in accordance with the Somfy instructions and the applicable regulations in the country of commissioning.

SPECIFIC INSTRUCTIONS FOR ASSEMBLY

Sonesse 40 Zigbee : interior diameter of the tube has to be Ø 37 mm or greater.

Frequency bands and Maximum power used	2.4 GHz - 2.4835 GHz e.r.p. <63mW [USA, Australia, Canada] 2.4 GHz - 2.4835 GHz e.r.p. <10mW [Other countries]
Power supply	230 V ~ 50 Hz / 120 V ~ 60 Hz / 220 V ~ 60 Hz

Stand-by consumption: < 0,5W
