The image displays three views of a Sony CCD camera module. The left view shows the front of the module, which is a rectangular metal housing with a large, clear, rectangular lens cover. The right view shows the back of the module, which is a similar rectangular metal housing with a large, clear, rectangular lens cover. The center view shows the internal components of the module, which are mounted on a green printed circuit board (PCB). The PCB is populated with various electronic components, including integrated circuits, capacitors, and resistors. A large, black, rectangular component, likely the CCD sensor, is visible in the center of the PCB. The PCB is labeled with '3017000106' and 'FT3'.
