

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

**EUT Housing and Board
View 1**

**EUT Housing and Board
View 2**

Solder Board-Component View 1	 A photograph of a green printed circuit board (PCB) component, labeled 'RR270 Charge Board', placed on a blue surface next to a black ruler. The ruler has white markings in millimeters (0 to 100) and centimeters (0 to 10). The PCB is populated with various electronic components, including a large electrolytic capacitor (1000µF 35V), a smaller capacitor (220), and several integrated circuits. The text 'RR270 Charge Board', 'MER B.0', 'SIZE: 50', and 'DATE: 20' is visible on the board.
Solder Board-Component View 2	 A photograph of the same green PCB component from a different angle, showing the underside. The board is populated with various electronic components, including a large electrolytic capacitor (1000µF 35V), a smaller capacitor (220), and several integrated circuits. The text 'RR270 Charge Board', 'MER B.0', 'SIZE: 50', and 'DATE: 20' is visible on the board. The board is placed on a blue surface next to a black ruler with white markings in millimeters and centimeters.

Solder Board-Component View 3	 A photograph of a small electronic component assembly on a white PCB, viewed from the top. The assembly includes a yellow electrolytic capacitor, a black integrated circuit, and several smaller components. A black ruler with white markings is placed horizontally and vertically next to the component for scale. The ruler markings are in millimeters, with the horizontal ruler showing 0 to 100 mm and the vertical ruler showing 0 to 100 mm.
Solder Board-Component View 4	 A photograph of a green printed circuit board (PCB) with various electronic components soldered onto it. The components include several integrated circuits, resistors, and capacitors. A black ruler with white markings is placed horizontally and vertically next to the PCB for scale. The ruler markings are in millimeters, with the horizontal ruler showing 0 to 100 mm and the vertical ruler showing 0 to 100 mm.
