Re: Supersede request for FCC ID: **P27-TMOG4SE**; Granted on **04/15/2023**

To Whom It May Concern:

We regret to inform you that a correction to the certified module's WWAN external antenna gain is needed; this is an update to the antenna gain specified in filing only, no hardware changes were made.

To prevent misunderstanding to the public, we would like to request the FCC to supersede the original incorrect Test Report (Co-located)_rev and RF Exposure Info (MPE)_rev2 exhibits with Test Report (Co-located)_rev 2 and RF Exposure Info (MPE)_rev3 respectively.
