Email Address* _

Thank you for purchasing your MERKURY SMART home product.

()

Get started using your new devices by downloading **Merkury Smart** App, one convenient app that manages everything straight from your phone or tablet. Easily connect to your home Wi-Fi, and control multiple devices from the touch of your fingertips.

03

 Authorize your account with Smart Home Skills using the username and password from your Merkury Smart app.

04

۲

 Choose "Discover Devices." After a few seconds your Merkury devices will be displayed under Smart Home in the Alexa app.

Discover Devices

Smart Home devices must be discovered before they can be used with Alexa.

CANCEL

DISCOVER DEVIC

 (\bullet)

 You can rename your devices in the app, and Alexa will refer to them by the same name.

So if you rename a smart Cam to "Living Room" or a nickname like a smart camera to "Living Room Camera" or "Baby's Room,"

Alternatively, you can create an Alexa group, like "Bedroom" or "Downstairs," and add the device to the group.

Alexa will recognize the group name in the Alexa app, or the device name in the Merkury Smart app.

Amazon Alexa

To control your Merkury smart home products, just ask Alexa. Make sure your devices are already set up using the Merkury Smart app.

Things you can say*:

Stream to:

"Alexa, show Living Room Camera." "Alexa, show me the kids room Camera." Amazon Echo Show, Amazon Fire TV, and any Alexa-enabled TV or screen.

*Some commands require compatible devices.

01

۲

111

 Open the Alexa app and go to Skills in the menu.

02

 Search for Merkury Smart Cam then tap Enable.

FCC Notice:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- · Reorient or relocate the receiving antenna.
- · Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- · Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator and your body

MERCURY IN A WAY AND A WAY

Now your Google Home app and Merkury devices are linked!

You're now able to say "Hey Google" and control your Merkury devices.

At any time, go into the "Home Control" section of the Google Home app to set nicknames and rooms for your devices. You can rename your devices in the Merkury Smart app, and Google Home will refer to them by the same name.

So if you rename a camera to 'Living Room Camera' or 'Baby's Room," then Google Home will use that same name later on. You can always give it a nickname using the Google Home app as well.

Google Home will be able to control devices by room.

Google Home

To control your Merkury Smart home products, just say "OK Google," or "Hey Google," and ask. Make sure your devices are already set up using the app.

Things you can say*: Stream to:

"Hey Google, show me the Living Room Camera." "Hey Google, what's on Kid's Room Camera?"

Google Home Hub, Google Home Smart Displays, Google Nest Hub, and any Google Chromecast-enabled TV, screen, or PC

*Some commands require compatible devices.

Frequently Asked Questions

How can I share videos with family and friends? Select the "Activity" tab on the bottom navigation bar and view an activity to share with others. Use the "Share" button to choose how you want to share the activity event.

How do I customize my dashboard?

Select the "Edit" option on the top of "Home" page. Create additional pages on your dashboard by dragging tiles to the right and organize devices to fit how you use them.

How many devices can I control?

Merkury Smart app can control an unlimited amount of devices in an unlimited amount of locations. Your router may have a limit of how many devices can be connected to one router.

- My Merkury device has a funny name. How do I rename it? From your main device list, click on the device you want to rename, then click "Device Settings", then click on "Device Name". Rename your device to a more familiar name like "Bedroom" or "Living Room" and then click Save.
- The device appears offline or unreachable, what should I do? Make sure your Wi-Fi router is online and in range. Make sure your device is plugged in and paired. You may also try restarting the device or if needed, re-pairing it.

What's the wireless range?

The range of your home Wi-Fi is heavily dependent on your home router and the conditions of the room. Check with your router specifications for exact range data.

 If my Wi-Fi/Internet goes down, will my devices still work? Merkury products need to be connected to Wi-Fi in order to use them remotely. Rules

RULES

Create Motion & Sound Detection Rules

01. Select the "Rules" tab on the bottom navigation bar and tap the "+" at the top corner of the screen.

02.

You can use a recommended rule. like "Record video and get notifications when motion is detected". or create your own.

Plug In

01.

Unfold the included antenna so that it is pointing upwards for an optimal signal.

02

Use the included 3 screws and wall anchors to mount the camera to the desired wall.

03.

Adjust the camera to the desired angle and direction.

04.

۲

Plug camera into power source using the included power cable. The indicator will remain solid red when starting up, but will begin to blink red when connected. If it does not blink, please reset the camera using the reset button.

Solid Blue
