 $\triangle$  Safety instructions for the lithium battery and charging the product

- -The input voltage to the product is DC 5V 1A.
- -In order to charge the product in safe manner and reliable conditions, please only adopt certified appropriate charger/adapter for charging the product. -Only charge the product at ambient temperatures between 10°C/50°F and
- 40°C/104 °F. - Do not heat above 70°C/158°F, eg. Do not expose to sunlight or throw into fire.
- -Switch off the product after use. -Please note that we won't take any responsibility for any wrong operation (eg. Voltage higher than 5V) as this may result in severe injury or loss of property, and we cannot control the operating process during the time the user using this product.
- -In extreme cases, abuse or misuse of Lithium battery pack can lead to explosion, heat generation, fire development or smoke development.

# **FCC STATEMENT**

This device complies with the part 15 of the ECC rules. Operation is subject to the following two conditions:(1) this device may not cause harmful interference. and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the ECC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with instructions may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. The user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- · Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- · Consult the dealer or experienced radio / TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
