Re: request expedited review

To whom it may concern

We, Extreme Networks, Inc., hereby declare that **FCC ID: QXO-4411OU** and **FCC ID: QXO-4411OAC** are electrically identical in design and construction. The difference between both products is as following table.

item	FCC ID(FCC ID: QXO-4411OAC) of Previously Granted DFS Devices	FCC ID(FCC ID: QXO-4411OU) of New Application	Difference
Wireless technology	802.11abgnac with Beamforming	802.11abgnac with Beamforming	The same
Supported bandwidths	20MHz, 40MHz, 80MHz	20MHz, 40MHz, 80MHz	The same
Antenna specifications and configuration	MIMO 4X4 Min. ant. gain is 4dBi (Sector Ant.)	MIMO 4X4 Min. ant. gain is 4dBi (Sector Ant. as filed in QXO-4411OU)	Subset of ant. in previous filing
Differences in DFS function, circuitry, software, etc.	Master device with TPC Function Circuit: same as QXO-4411OU Software: 10.01.01.0077	Master device with TPC Function Circuit: same as QXO-4411OAC Software: 10.01.01.0077	The same
RF characteristics are different (e.g. output power, frequency range, etc.)	Same as FCC ID: QXO-4411OU	Same as FCC ID: QXO-4411OAC	The same
Names of the test labs for the various Grants	SPORTON International Inc.	SPORTON International Inc.	The same
DFS testing applied standards	KDB905462 D02 v01r02	KDB905462 D02 v01r02	The same

The **FCC ID: QXO-4411OU** utilized the same internal components as **FCC ID: QXO-4411OAC**. Therefore the technical specifications are identical.

FCC ID: **QXO-4411OAC** DFS was completely tested on April 20, 2016 at FCC Lab.

Please contact us if any further information is required to facilitate that process.

Sincerely

Signature
