

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

Call version

EUT Housing and Board View 1	 A photograph showing the white plastic housing of the EUT and its internal circuit board. The housing is positioned on the left, and the circuit board is on the right. A black ruler with white markings is placed vertically to the left of the housing and horizontally below the circuit board for scale. The background is a blue fabric surface. The circuit board features a USB port and a small antenna.
EUT Housing and Board View 2	 A photograph showing the white plastic housing of the EUT and its internal circuit board, similar to View 1 but with a different component. The housing is on the left, and the circuit board is on the right. A black ruler with white markings is placed vertically to the left of the housing and horizontally below the circuit board for scale. The background is a blue fabric surface. The circuit board features a USB port and a small antenna.

Solder Board-Component View 1	 A photograph of a small electronic component, likely a sensor or microcontroller, mounted on a blue textured surface. The component is connected to a thin black wire. A black L-shaped ruler is placed next to the component for scale. The ruler has markings in millimeters (0 to 100) and centimeters (0 to 10). The component is positioned near the 10 mm mark on the horizontal ruler and the 10 mm mark on the vertical ruler.
Solder Board-Component View 2	 A photograph of the same electronic component from a different angle, showing the solder joints. The component is connected to a thin black wire. A black L-shaped ruler is placed next to the component for scale. The ruler has markings in millimeters (0 to 100) and centimeters (0 to 10). The component is positioned near the 10 mm mark on the horizontal ruler and the 10 mm mark on the vertical ruler.

Solder Board-Component View 3	 A photograph of a small, dark, rectangular electronic component with a curved top edge, mounted on a blue textured surface. The component has several small components and markings, including "91-1E32000B" and "7-0-1000". A black L-shaped ruler with white markings is placed next to the component for scale. The ruler shows dimensions in millimeters (mm) and centimeters (cm).
Solder Board-Component View 4	 A photograph of the same electronic component from a different angle, showing the underside. The component is mounted on a blue textured surface. A black L-shaped ruler with white markings is placed next to the component for scale. The ruler shows dimensions in millimeters (mm) and centimeters (cm). The component has markings including "SC-H323" and "VER1.0".

View 6**

Solder Board-Component View 7	 A photograph of a circular black PCB component with a central circular cutout and a small rectangular notch at the bottom. The component is placed on a blue textured surface next to a black L-shaped ruler with white millimeter markings. The component's part number 'WTH-2500P-341' is visible on its left side. A small gold-colored component is mounted on the top edge of the PCB.
Solder Board-Component View 8	 A photograph of the same circular black PCB component from a different angle. It shows six small, square, silver-colored components mounted around the central cutout. The component is placed on the same blue textured surface next to the same black L-shaped ruler. The part number 'WTH-2500P-341' is visible on the right side of the component.

Antenna View

Non-calling version

EUT Housing and Board View 1	 A photograph showing the EUT housing and board for View 1. The housing consists of a white, dome-shaped top and a white, cylindrical base. The top of the dome has a small, circular, textured area. The base has a small, rectangular, textured area. The board is a small, circular, white PCB with a central component and two small, rectangular, textured areas. The components are placed on a blue surface next to a black ruler with white markings.
EUT Housing and Board View 2	 A photograph showing the EUT housing and board for View 2. The housing consists of a white, dome-shaped top and a white, cylindrical base. The top of the dome has a small, circular, textured area. The base has a small, rectangular, textured area. The board is a small, rectangular, white PCB with a central component and two small, rectangular, textured areas. The components are placed on a blue surface next to a black ruler with white markings.

Solder Board-Component View 1	 A photograph of a small, dark, curved electronic component (likely a solder mask or component) placed on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). The component is approximately 10 mm long and 5 mm wide. It features a gold-colored connector on one end and various markings, including "SC-11323" and "VERLO".
Solder Board-Component View 2	 A photograph of the same small, dark, curved electronic component from a different angle (View 2). It is placed on the same blue textured surface next to the same black ruler. The component is approximately 10 mm long and 5 mm wide. It features a gold-colored connector on one end and various markings, including "DT-2E320006" and "VERLO".
