Left Earbud

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| EUT View 1 |  A photograph of a black, in-ear earbud (EUT) placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the earbud, showing measurements from 0 to 100 mm. The earbud is oriented with its stem pointing downwards and slightly to the right.                                               |
| EUT View 2 |  A photograph of the same black, in-ear earbud (EUT) from a different angle, placed on the same blue textured surface. The black ruler with white markings is again positioned vertically to the left, showing measurements from 0 to 100 mm. In this view, the earbud is oriented with its stem pointing downwards and slightly to the left. |

|                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

| <p>EUT View 3</p> |  A black, L-shaped electronic component is shown from a top-down perspective. It has a rounded, bulbous end and a straight, cylindrical stem. The component is placed on a light blue surface with a fine, dotted texture. Below the component is a black ruler with white markings. The ruler has two scales: the top scale is marked from 0 to 100 in increments of 10, and the bottom scale is marked from 0 to 100 in increments of 10, with the numbers 0, 20, 40, 60, 80, and 100 appearing on both scales. |
| <p>EUT View 4</p> |  A black, L-shaped electronic component is shown from a side-on perspective. It has a rounded, bulbous end and a straight, cylindrical stem. The component is placed on a light blue surface with a fine, dotted texture. Below the component is a black ruler with white markings. The ruler has two scales: the top scale is marked from 0 to 100 in increments of 10, and the bottom scale is marked from 0 to 100 in increments of 10, with the numbers 0, 20, 40, 60, 80, and 100 appearing on both scales. |

|                   |                                                                                     |

| <p>EUT View 1</p> |  A photograph of a black, in-ear earbud (EUT View 1) resting on a blue textured surface. A black ruler with white markings is placed horizontally below the earbud, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The earbud is positioned vertically, with its stem pointing downwards. The ruler is placed vertically to the left of the earbud, showing measurements in millimeters (0 to 50 mm) and centimeters (0 to 5 cm).                                         |
| <p>EUT View 2</p> |  A photograph of the same black, in-ear earbud (EUT View 2) from a different angle, resting on the same blue textured surface. A black ruler with white markings is placed horizontally below the earbud, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The earbud is positioned vertically, with its stem pointing downwards. The ruler is placed vertically to the left of the earbud, showing measurements in millimeters (0 to 50 mm) and centimeters (0 to 5 cm). |
