

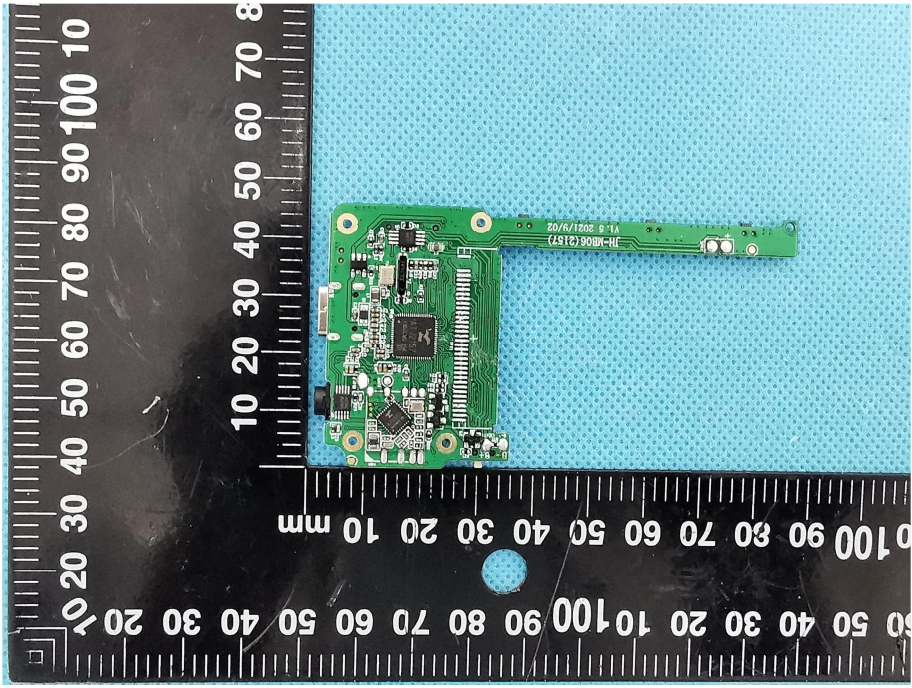

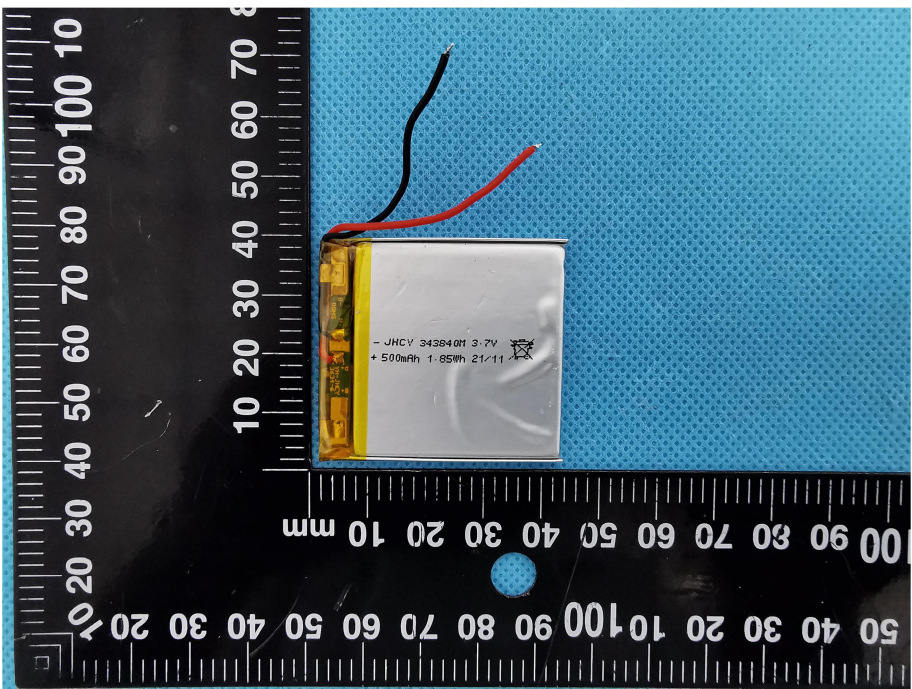

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

Solder Board-Component View 2	 A photograph of a green printed circuit board (PCB) component, likely a camera module, positioned on a blue textured surface. The component is rectangular with a long, thin extension on the right side. It is surrounded by a black ruler with white markings in millimeters. The ruler is oriented vertically on the left and horizontally at the bottom. The component is centered between the 10 mm and 100 mm marks on the vertical ruler and between the 10 mm and 100 mm marks on the horizontal ruler.
Solder Board-Component View 3	 A photograph of a white rectangular battery component, likely a lithium-ion battery, positioned on a blue textured surface. The battery has two wires (red and black) extending from the top. It is surrounded by a black ruler with white markings in millimeters. The ruler is oriented vertically on the left and horizontally at the bottom. The battery is centered between the 10 mm and 100 mm marks on the vertical ruler and between the 10 mm and 100 mm marks on the horizontal ruler. The battery label includes the text: "JHCV 343640H 3.7V", "500mAh 1.85Wh 21/11", and a recycling symbol.
