Cover Letter Antenna used with Part 15 Transmitter

We, **SALTUS Industrial Technique GmbH**, declare for the following product(s) with the FCC ID: **2AIPF-F6X**:

We ensure and control the professional installation of the device and the professional installer may choose the proper antenna for the install.

We use contracted installers who install their equipment and ensure the proper antenna is used.

We justify professional installation (for marketing, installation, and use restrictions. follow professional installation justification guideline) and ensure that the installation is done by a professional installer under our control. The professional installer will be provided the proper instructions for output power/cable/antenna configurations that meet the rules. These instructions are not given to the end user and in no case can the end user will have controls to adjust power.
