Singing with Microphone

1. Connect to smartphone, tablet, or computer capable of playing music and displaying lyrics wirelessly via Bluetooth® or connect to your device using micro USB cord with 3.5mm audio plug (included).
2. Choose song using music player or favorite karaoke app from the App Store or Google Play and sing along.
3. Adjust music volume on built-in speaker using your device controls. Adjust the microphone volume using the volume control on the microphone itself. Adjust the echo control to add a stadium effect.

*Several free karaoke apps that provide instrumental versions of popular songs are available on the App Store and Google Play (not included).

Recording with Microphone

1. Connect to smartphone, tablet, or computer capable of playing music and displaying lyrics using the micro USB cord with 3.5mm audio plug (included).
2. Connect headphones (not included) to 3.5mm audio output on microphone for better quality recordings and results.
3. Select song and record performance using your favorite karaoke app (not included).

*Recordings can only be made while microphone is connected directly to device using the micro USB cord with 3.5mm audio plug (included). Recordings are not supported when connected wirelessly. Wireless function is disabled when connected via micro USB cord.
