

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	
EUT Housing and Board View 2	

EUT Housing and Board View 3	 A photograph showing the internal components of a white, circular EUT housing. The components include a green PCB, a black battery, and various electronic parts. A black ruler with white markings is placed horizontally above the housing for scale. The background is a blue textured surface.
Solder Board-Component View 1	 A close-up photograph of a small green PCB component with a yellow connector. The component is placed on a black surface with a white ruler for scale. The ruler has markings in millimeters and centimeters. The background is a blue textured surface.

Solder Board-Component View 2	 A photograph of a small green printed circuit board (PCB) component, identified as H71W7_T&H_V1.1, mounted on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). The component has several soldered connections and a small white label with the text 'H71W7_T&H_V1.1' and '2023/12/21'.
Solder Board-Component View 3	 A photograph of the same green PCB component from a different angle, showing the underside. It is placed next to the same black ruler. The underside of the component shows various electronic components, including a large white capacitor, several resistors, and a small white label with the text 'H71W7_LED_V1.0' and '2023.12.22'.

Solder Board-Component View 6	 A photograph of a small green printed circuit board (PCB) component, likely a surface-mount device, positioned on a blue textured background. The component is rectangular with a small tab extending from one side. It is placed next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm. The component is oriented vertically, with its longer side parallel to the 0-100 mm scale.
Solder Board-Component View 7	 A photograph of a larger yellow printed circuit board (PCB) component, likely a surface-mount device, positioned on a blue textured background. The component is rectangular with various electronic components soldered onto it, including two red electrolytic capacitors, a black integrated circuit (IC), and several smaller components. It is placed next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm. The component is oriented horizontally, with its longer side parallel to the 0-100 mm scale.
