DO NOT USE A FAST CHARGING ADAPTER TO CHARGE YOUR SMARTWATCH

*use a 3.7V to 5V adaptor only

Downloading and connecting of smart watch with FB Invincible Plus APP

1. Download and install FB Invincible Plus APP.

2. Scan QR code with mobile phone to download APP.

3. For IOS system, select APP Store, search for FB Invincible Plus APP.

Android system, select Google Play to download and install FB Invincible Plus APP. Or scan QR code to download.

Note: Your mobile phone must support Android 5.0 or iOS 9.0 or above, and Bluetooth 4.0 or above.

Connect smart watch with FB Invincible Plus

Search Device To Connect

Tap Device icon on navigation bar and click on "Search Device" to find and connect FireBoltt 181 smart watch.(If you can not connect with APP,please check if you have open the bluetooth function of your phone, and try again.)

After clicking "Search Device", APP will search nearby smart watch device

After searching device, APP will show the smart watch name and MAC address

Click the device with correct Name and MAC address (You can check device name from watch setting menu-"About ").After connecting, APP will show device name. And display "synchronizing".

After synchronizing the data from watch.APP will show "Connected".It means the watch is connected with FB Invincible Plus App.

There are two different contents of APP displaying after successfully connecting APP with smart watch, based on Android system and iOS system.

Please check the following contents for Android system and iOS system.

How to connect watch with smartphone bluetooth:

For Android

After synchronizing the data from watch and showing "Connected", the APP will show a bluetooth pairing request.

Please mark to "Allow access to your contacts and history". And "Pair" smartphone bluetooth with FireBoltt 181.

After connecting watch with FB Invincible Plus APP and smartphone bluetooth.Please go back to watch and swipe down from main interface to Hotkey menu to check if the bluetooth icon and phone bluetooth are both in blue colour.If the bluetooth icons are both in blue colour,then the watch is successfully connected with both APP and smartphone bluetooth.

For iOS

After synchronizing the data from watch and showing "Connected",the APP show a "Bluetooth Pairing Request". Please allow to "Pair"the watch and "Allow Fire-Boltt 181 to Receive your iPhone Notification".

After connecting watch with FB Invincible Plus APP and smartphone bluetooth.Please go back to watch and swipe down from main interface to Hotkey menu to check if the bluetooth icon and phone bluetooth are both in blue colour.If the bluetooth icons are both in blue colour,then the watch is successfully connected with both APP and smartphone bluetooth.

Scan Smartwatch QR Code To Connect

There is another way to connect smartwatch with smartphone.

You can also scan the smartwatch QR code to connect smartwatch with smart phone. This is a way no need to search the device name and smart-watch MAC address.

Tap Device icon on navigation bar and click "Scan code to add"

Swipe down from main interface to Hotkey menu to open smartwatch QR Code

Scan the smartwatch QR Code via FB Invincible APP.Then follow the same steps by searching device to connect.

Please note:During all connecting process,you need to keep smartphone Bluetooth open.

Bluetooth Calling Function

After watch connecting with APP and phone Bluetooth.You can make or receive phone calls, check call records,check contacts.

Note:Please make sure to connect smart watch both with FB Invincible Plus APP and Phone Bluetooth before you use Bluetooth Calling functions.

For iOS, you need to go to smartphone bluetooth list and click "FireBoltt 181" to allow smartwatch use "Sync Contact" data.

Tap Contact from Bluetooth Calling interface to Sync and check smartphone contacts. You can tap the Sync icon to sync smartphone contact to smartwatch.

Part D - Switch calls between Phone or Watch

Switch Between Watch or Phone During an Active Call:

If your watch is connected to the Phone via Bluetooth,all calls will come on the watch by default. If you want to change the call to the phone during an active call, simply click on FireBoltt 181 Bluetooth icon to select. The call will then come on your phone.

Charge The Battery And Battery Lfie

ROYALE charger is a 4-pin magnetic charger. If you need to charge smartwatch or download the songs to smartwatch, you can just put the 4-pin charger on the charging port of the smart watch.

4-Pin Cable can be used to charge the battery and download musics to smartwatch.

There is a heart rate sensor protector on the sensor, you can take it off before using smartwatch.

It takes about 3 hours to 3.5 hours to fully charge the battery.For first using,please charge the battery for 3.5 hours before using.

The battery life time depends on your usage of the smartwatch. The below life time is only for your reference.

General standby time is 15 Days(Not with Screen Screen Always-on function).

Screen always-on standby time is 2 Days.

Normally using time is 3-4 Days.

Advice: To conserve battery, It is advised to turn off the bluetooth when not in use.

If you want to make the strap length shorter, you can use the pin tool in the watch accessory box to take out the strap pin and take some parts of the strap out.
