

User manual(I887)

Package contents:

1*Wireless mouse

1* Nano receiver

1* User manual

Product features:

Stable wireless transmission

2.4GHz wireless technology can provide a reliable connection and not subject to any interference in the 360 degree with 15 meters.

Surface Compatible King

Unique “interface” focusing ability, high light ceramic tile, dust glass, enhance the adaptability of optical sensor

Than ordinary wireless power-saving five times

The industry’s high chip, five times power-saving than ordinary mice the standby time up to 24 months.

No Code Intelligent Connectivity

Plugging the mini-receiver into computer’s USB port and inserting the battery into the mouse. The mouse will respond immediately, no need complicated code, plug and play freely.

3 DPI adjustment:

3 DPI adjustment function, 800-1200-1600DPI, to meet the different needs of users..

Quick start guide:

① Open the battery case, insert the battery to the case(pay attention the positive and negative position)

Note: Before you use it, please tear the battery insulating protective film

②Remove the receiver

③Insert the receiver into the computer USB interface

Data parameter

Data transmission: 1 Mbps

Frequency: 2402.85MHz-2480.85MHz

Channel:16

Engine: No light

Distance: 15m

Voltage: 1.5V

Current: $12 \pm 2\text{mA}$

Mouse key life: 300 millions Above

Size: 111.3*76*71.4mm

Weight: 90g

Tracking Performance:

Mouse resolution: 800-1200-1600DPI

Mouse rate of return: 250Hz

System requirement:

IBM or compatible computer:

Windows: 2000/ME/XP(*64)/Vista/7/8/10

Mac OS X(V10.4 above)

Workable USB port

FCC STATEMENT:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
