

The above complied with Part 11.00 No 11.02. These
 specific is subject to the following conditions:

- (i) The device may not operate without maintenance, and
- (ii) the device must accept any maintenance required,
 including software, for the most common operation.

[illegible]

- **Statement to describe the existing system**
- **Diagram for connections between the equipment and system**
- **Diagram of the equipment into an order as a physical object and how that is related to the software - a connection**
- **Diagram of the details of an implemented order (2 types of order)**

The device has been evaluated to meet general fit exposure requirements.

- [illegible]

- 2.1.1. Common fuel supply**
- 1. Fuel pump
 - 2. Fuel filter
 - 3. Fuel line
 - 4. Fuel injector
 - 5. Fuel manifold
 - 6. Fuel rail
 - 7. Fuel pressure regulator
 - 8. Fuel return line
 - 9. Fuel tank
 - 10. Fuel pump
 - 11. Fuel filter
 - 12. Fuel line
 - 13. Fuel injector
 - 14. Fuel manifold
 - 15. Fuel rail
 - 16. Fuel pressure regulator
 - 17. Fuel return line
 - 18. Fuel tank
- 2.1.2. Common fuel supply**
- 1. Fuel pump
 - 2. Fuel filter
 - 3. Fuel line
 - 4. Fuel injector
 - 5. Fuel manifold
 - 6. Fuel rail
 - 7. Fuel pressure regulator
 - 8. Fuel return line
 - 9. Fuel tank
 - 10. Fuel pump
 - 11. Fuel filter
 - 12. Fuel line
 - 13. Fuel injector
 - 14. Fuel manifold
 - 15. Fuel rail
 - 16. Fuel pressure regulator
 - 17. Fuel return line
 - 18. Fuel tank
- 2.2. Common fuel supply**
- 1. Fuel pump
 - 2. Fuel filter
 - 3. Fuel line
 - 4. Fuel injector
 - 5. Fuel manifold
 - 6. Fuel rail
 - 7. Fuel pressure regulator
 - 8. Fuel return line
 - 9. Fuel tank
 - 10. Fuel pump
 - 11. Fuel filter
 - 12. Fuel line
 - 13. Fuel injector
 - 14. Fuel manifold
 - 15. Fuel rail
 - 16. Fuel pressure regulator
 - 17. Fuel return line
 - 18. Fuel tank

-
- Figure 1** Diagrams illustrating the design of a bicycle seat. (a) shows a cross-section of a seat with labels for 'Seatpost', 'Seat', and 'Seat rails'. (b) shows a side view of a seat with labels for 'Seatpost', 'Seat', and 'Seat rails'. (c) shows a top view of a seat with labels for 'Seatpost', 'Seat', and 'Seat rails'. (d) shows a side view of a seat with labels for 'Seatpost', 'Seat', and 'Seat rails'.

- 3. Splitpoint mounting brackets:**
 Splitpoint mounting brackets, also called split-mount brackets, are used to mount a camera to a tripod.
- 4. Camera mounting brackets:**
 Camera mounting brackets are used to mount a camera to a tripod.
- 5. Camera mounting brackets:**
 Camera mounting brackets are used to mount a camera to a tripod.

- 4.3 Installation & removal of concrete**
- 4.3.1 Attach the bracket bracket to the beam (see Fig. 4.3.1)
- 4.3.2 Fix to pile-concrete
- 4.3.3 Place the concrete on the concrete bracket (Fig. 4.3.3)
- 4.3.4 Once casting, level off concrete and take off
- Installation in column/bridge
- 
- Using bracket with
pile and concrete
pile only
- Using bracket with
pile and concrete
pile only
- Using bracket with
pile and concrete
pile only
- Remove installation and demounting
- Removal:** Hydraulic bracket and mounting unit, screw, concrete, and the top of the concrete pile are removed and the concrete pile is removed. The concrete pile is removed and the concrete pile is removed.

-
- Figure 1 consists of three diagrams labeled (a), (b), and (c), each showing a cross-section of a developing embryo. Diagram (a) shows a central cavity surrounded by a single layer of cells. Diagram (b) shows a central cavity surrounded by a single layer of cells, with a small arrow pointing to a specific cell. Diagram (c) shows a central cavity surrounded by a single layer of cells, with a small arrow pointing to a specific cell.

- 5.1 Voltage battery: 2 x 1000mAh lithium battery
charging time about 1-2 hours
- 5.2 Voltage (single Port): 5V/2.1A (5V/2.0A)
(single-port charging time: see 5.1)
- 5.3 Noise (audio): 100dB (100dB) (audio noise)
Working time about 1-2 hours (see 5.1)
- 5.4 Working frequency: 433MHz
- 5.5 Remote range: 0-32m
- 5.6 Remote speed: 1m/s
- 5.7 Working temperature: 20°C ~ +50°C
- 5.8 Working humidity: <95%
- 5.9 Storage temperature: -40 ~ +70°C

Twilight Mode	Red	White
Screening	107	90
Dimly lit	41.5	5
Screen-on	10.2	4.5
Screen	10.2	0
Does the screen control	11	11
Screen programmable	10.5	10.5

- 6.1.1 **Can't remove property**
 - 6.1.1.1 **Right of first refusal** (the person indicates that right to buy in their will, unless retained the estate/property interest)
- 6.1.2 **The trustee is in an equal relationship with the beneficiaries**
 - 6.1.2.1 **Beneficiary's right to sue** (the trustee can't sue the beneficiary, but the beneficiary can sue the trustee if they don't follow the terms of the trust)
- 6.1.3 **Can't sue trustee for damages and defendant has to prove that the trustee acted in bad faith**
 - 6.1.3.1 **Can sue for damages** (if the trustee acted in bad faith)
- 6.2 **Unfulfilled donor's wish**
 - 6.2.1 **Unfulfilled wish** (donor died, trustee not successful)
 - 6.2.2 **Is court able to fulfil the wish** (the trustee can't sue the beneficiaries, but the beneficiaries can sue the trustee if they don't follow the terms of the trust)
