

Federal Communications Commission
7435 Oakland Mills Road
Columbia MD 21046

Date: Sept. 28, 2004

Subject: Request the Commissions to dismiss the deferred application

Reference: Applicant : Atheros Communications
FCC ID: PPD-AR5BMB-00044
FCC Confirmation number: EA228314

To Whom It May Concern:

Compliance Certification Services (CCS) is the authorized agent for Atheros Communications for application for equipment authorization. Agent authorization is on file with FCC.

Above referenced application is under Deferred status due to the DFS measurement procedure has not been finalized. Atheros Communications would like to add alternate antennas via Class II permissive change filings. However, due to the deferred application for the same FCC ID number and above application was not filed as composite device, so CCS-TCB cannot process this Class II permissive change via TCB system.

To solve this situation, Atheros Communication would like to request the Commission to dismiss the deferred DFS application so CCS-TCB would be able to process Class II permissive change filing.

After TCB Class II permissive change grants are issued, CCS will refile DFS Class II permissive change with FCC and the new EA number will be provided to FCC.

Based upon above statement, CCS is requesting the Commission to dismiss above mentioned application. If you have any question, please feel free to contact the undersigned.

Best Regards

Compliance Certification Services
