

Regulatory Notice

USA-Federal Communications Commission (FCC)

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy. If not installed and used in accordance with the instructions, it may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by tuning the equipment off and on, the user is encouraged to try and correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the distance between the equipment and the receiver.
- Connect the equipment to outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

TOSHIBA is not responsible for any radio or television interference caused by unauthorized modification of the devices included with this equipment, or the substitution or attachment of connecting cables and equipment other than specified by TOSHIBA.

The correction of interference caused by such unauthorized modification, substitution or attachment will be the responsibility of the user.

Canada

Industry Canada Class B emission compliance statement

This Class B digital apparatus complies with Canadian ICES-003.

RF Exposure Statement

This tablet PC has been tested and complied to the FCC limits of SAR (Specific Absorption Rate) regarding 47 CFR Part 2 section 2.1093 and RF exposure limits as specified in Industry Canada RSS 102.

When this equipment is used in Secondary Portrait mode, the RF transmission of Wireless WAN will be suspended.
