

ANNEX

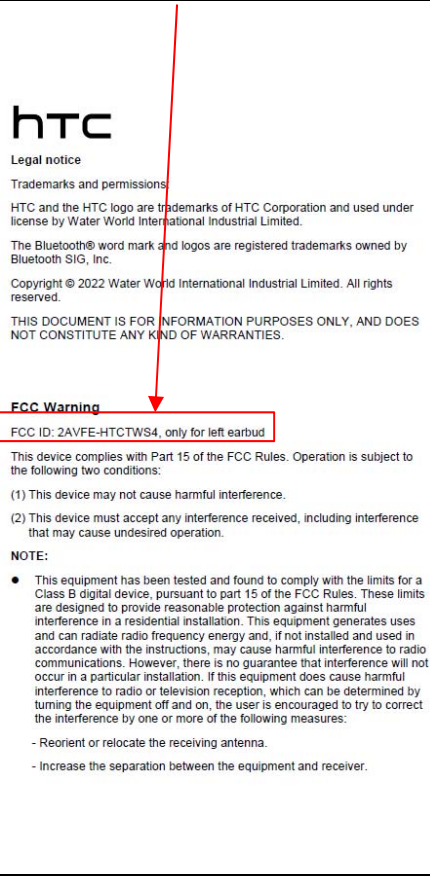

EXHIBIT 1 - PRODUCT LABELING

Proposed FCC ID Label Format

FCC ID: 2AVFE-HTCTWS4

Specifications: Due to the small size of the device, label will be placed on the packing box and at the user manual to ensure that the label will be readily visible at the time of purchase.

Proposed Label Location on EUT

FCC ID Label Location	 The diagram shows the back of an HTC earbud packaging box. A red arrow points to a red rectangular label area. The label contains the following text: htc Legal notice Trademarks and permissions HTC and the HTC logo are trademarks of HTC Corporation and used under license by Water World International Industrial Limited. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. Copyright © 2022 Water World International Industrial Limited. All rights reserved. THIS DOCUMENT IS FOR INFORMATION PURPOSES ONLY, AND DOES NOT CONSTITUTE ANY KIND OF WARRANTIES. FCC Warning FCC ID: 2AVFE-HTCTWS4, only for left earbud This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference. (2) This device must accept any interference received, including interference that may cause undesired operation. NOTE: • This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: - Reorient or relocate the receiving antenna. - Increase the separation between the equipment and receiver.
