

TX Operation description of model No.: 20-30

The product used the 433MHz TX and RX model, TX sends the radio frequency by press key, and the RX receive the signal by Ant and then act according to the frequency. The product should

Parameters of RF as following:

Working frequency band: 433.92MHz;

Channel numbers: 1Channels; Channel space: 1MHz;

Modulation type: ASK; (It contains transmitter; Receiver);

Support Data Rate: 62.5kbps;

Conducted Power: 0dBm;

Antenna Gain: 0dBi;

Antenna Type: PC Antenna
