Washington, DC 20554

Subject: Cover Letter for FCC application for Certification

To whom it may concern:

This **Model AT Max** is a part of the Garrett Z-Lynk Wireless Digital Transmission System operating in the 2.4GHz ISM band. It is used with the Garrett Z-Lynk compatible wireless headphones (currently the Model MS-3) or WR-1 wireless headphone adapter. The radio is powered by 3.3 volts derived from the detector's 6 volt AA battery pack. It transmits audio from the detector via a wireless link to Garrett Z-Lynk Wireless headphones or Garrett Z-Lynk Wireless WR-1 headphone receiver/adapter and receives handshake data back from the headphones or adapter.

This is to seek an original Certification on the **Model AT Max** as compliant with FCC 15.247.

FCC ID: DBDZLYNKATMAX0

Sincerely,

Robert Podhrasky
Sr. VP, COO
