

# Ultrathin iPad Bluetooth Keyboard

## *K2L USER'S GUIDE*

Ver.:1.00

CAUTION: To use this product properly, please read the user's guide before installing.

## **Federal Communication Commission Interference Statement**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**FCC Caution:** Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

### **IMPORTANT NOTE:**

#### **Radiation Exposure Statement:**

The product comply with the US portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

**Industry Canada statement:**

This device complies with Industry Canada's licence-exempt RSSs.

Operation is subject to the following two conditions:

- (1) This device may not cause interference; and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- 1) l'appareil ne doit pas produire de brouillage;
- 2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

## **Bluetooth Keyboard**

Thank you for your purchasing the Bluetooth keyboard .Before you use this product, please read this manual thoroughly and use this product correctly. After you read this manual, please keep it in place and refer to it when necessary.

Now, enjoy and have fun!

## Trouble Shooting Guide

- Ensure that the computer's Bluetooth technology is working. If a Bluetooth USB adapter is being used, make sure it is plugged in properly. Try un-plugging and re-plugging the USB adapter. On some Systems, a restart may be required.
- If the red LED starts blinking while the keyboard is in use, it is indicating a battery low status and it is time to change a new battery.
- On the PC, refer to the Bluetooth software help guide to ensure that Bluetooth is working properly. The PC must be running a version of Bluetooth for Windows XP that supports input devices (mice and keyboards).

- On the Mac, click on the Bluetooth icon within the system preferences pane. Refer to the Apple Bluetooth help file to ensure Bluetooth is working properly.
- Ensure your batteries are fully charged and inserted correctly.
- If the keyboard still is not discovered, ensure the correct versions of the software is installed. Mac OS10.2.8 or higher and Apple Bluetooth® software 1.5 or higher.
- Try moving the keyboard closer to the computer or to the adapter.
- Ensure that there are no other Bluetooth devices in discover mode.
