Hummer, Isuzu, Jeep, Lincoln, Maserati, Mazda, Mercury, Mini, Pontiac, Porsche, Retrofit  
Mini, Pontiac, Porsche, Retrofit, Saab, Saturn, Smart, Suzuki Motor, Tesla, Volkswagen, VPG

## 2. INTRODUCTION

### 3. USAGE

1. Fill up 2 AAA good quality battery to compartment. Rechargeable battery has better performance and longer life because of larger capacity.

2. Place the back of the tool close to the sensor, which is inside tire. Align the button to the valve is a easier way.

Especially some Schrader/Sensata sensors require the tool to be very close to trigger sensor.

3. Short press the button on the tool. The Led light will continuously light on when trigger signals are transmitted.

Pls wait around 3 seconds before next press to allow the battery re-balanced to provide enough power signal.

4. If the Led light starts flashing, it means the battery voltage is lower and not able to transmit strong enough signals and some brand's sensor may not be triggered. Pls replace the old battery with new ones.

### 4. NOTE

This product is designed for simple usage, not for garage high frequently and professional usage.

Working temperature range is 14 to 122°F (-10 to +50 °C).

### 5. WARRANTY LIMITATION

All products sold are warranted against defects in workmanship and material under normal use and service for the earlier of (1) a period of 12 months from the date of manufacture. The warranty obligation of Baolong Huf is limited to the repair or replacement, at Baolong Huf's plant, of any product which is returned to Baolong Huf by the purchaser, within the warranty period, and which Baolong Huf determines upon examination is defective or not in conformity with the express warranties contained herein.

In stead of repair or replacement, if Baolong Huf selects, Baolong Huf may, upon return of such defective/non-conforming product by purchaser and making a determination of nonconformity or defect, keep the product and refund to purchaser the purchase price. To the extent permitted by law, under no circumstances will Baolong Huf's liability exceed the purchase price of the defective/non-conforming product at issue and Baolong Huf DISCLAIMS LIABILITY FOR ALL INDIRECT, CONSEQUENTIAL AND INCIDENTAL DAMAGES.

#### **FCC Statement**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference
- (2) this device must accept any interference received, including interference that may cause undesired operation.

#### **IC Statement**

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) this device may not cause interference, and
- (2) this device must accept any interference, including interference that may cause undesired operation of the

device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radioexempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Please take attention that changes or modification not expressly approved by the party responsible for compliance could void the user' s authority to operate the equipment.
