深圳市亿锋智能技术有限公司		
物料名称:说明书(符合RoHS标准)		
产品名称	产品工程师	设计者
三合一折叠无线充电器	詹剑锋	梁耀文

<div data-bbox="476 1005 1306 1105"> <h2 data-bbox="476 1005 1306 1105">3-in-1 Folding Wireless Charger</h2> </div> <div data-bbox="476 1105 1306 1277"> <p data-bbox="476 1105 1306 1175">Safety Notes:</p> <ul data-bbox="476 1175 1306 1242" style="list-style-type: none"> ● Use indoor or under dry environment, avoid placing or using in the environment of high temperature, humidity, strong static electricity and strong magnetic field; For your safety, please do not use wet hand plug and unplug electrical appliances; ● Avoid putting it in a place easily accessible to infants and children; ● Do not use the product if it is contaminated with water or dirt; ● Non-professional personnel are not allowed to open and repair without authorization. <p data-bbox="476 1242 1306 1277">Using instructions</p> <ul data-bbox="476 1242 1306 1277" style="list-style-type: none"> ● Turn on the power, the device will enter the standby state after connect to the power supply. ● Place the smart watch in the charging area for wireless charger. ● Place the mobile phone with magnetic suction on the magnetic suction position for wireless fast charger. ● Connect the Qi-enable phone or the wireless charging headset to the wireless charging area for wireless charger. <p data-bbox="476 1277 1306 1310">Q&A:</p> <p data-bbox="476 1310 1306 1345">Q: Why is there heating in the charging of wireless charging inductive products?</p> <p data-bbox="476 1345 1306 1380">A: During the charging process, there will be a certain loss of magnetoelectric conversion, which will be converted into heat, causing the mobile phone and charger to generate heat, which is a normal phenomenon.</p> </div>	<div data-bbox="1306 1005 2179 1105"> <p data-bbox="1306 1005 2179 1105">How to solve abnormal charging:</p> <ul data-bbox="1306 1005 2179 1105" style="list-style-type: none"> ● Please confirm whether your mobile phone has wireless charging function before use; *Check whether the phone deviates from the wireless inductive charging area of the charger; *Whether a non-metallic protective case is used for charging mobile phones, and the thickness of the protective case is recommended not to exceed 4mm; When metal objects touch the charging area, the charger will automatically identify and provide power off protection. When the temperature of the charger is too high, it will automatically start the protection. Please unplug the power supply first and use it after the charger recovers the temperature. <p data-bbox="1306 1105 2179 1140">Suggestions:</p> <ul data-bbox="1306 1105 2179 1140" style="list-style-type: none"> ● When the device is fully charged, disconnect it from charging time to avoid a long cycle of charging, which may lead to continuous heating of the device and charger; ● It is recommended to stop running the background software when charging the phone. ● If your phone is not charging, it may be a version issue. Please upgrade your phone to the latest system, or restart your phone to resolve the issue. ● If the device does not charge your watch, please check if your watch is up to date, if not, please upgrade to the latest system to solve the problem. ● Please charge after the temperature cools. Our chargers have temperature control to ensure your device is safe while charging. </div> <div data-bbox="1306 1140 2179 1277"> <p data-bbox="1306 1140 2179 1277">FCC Warning</p> <p data-bbox="1306 1140 2179 1208">This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.</p> <p data-bbox="1306 1208 2179 1277">Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:</p> <ul data-bbox="1306 1208 2179 1277" style="list-style-type: none"> ● Reorient or relocate the receiving antenna. ● Increase the separation between the equipment and receiver. ● Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. ● Consult the dealer or an experienced radio/TV technician for help. <p data-bbox="1306 1208 2179 1277">FCC RF exposure statement: The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator your body.</p> <div data-bbox="1306 1208 2179 1277">  </div> </div>
