

DESCRIPTION FOR APPLICATION and LIST OF EXHIBITS OF THE DOCUMENT ATTACHED

The leather case when it applies to the beginning is changed to the new design.

A new leather case is new structure.

(Refer to materials "Test Report" for the appearance of the new leather case.)

The measurement value of Body-SAR of the new leather case is higher than the value of the first application.

So, this application form applies for Class2 Permissive Change in accordance with the FCC rule Part2.1043.

Therefore, we submit "Measurement data of SAR and ERP/EIRP" and "application documents to be changed", which are related with the above permissive change.
