Equipment Label

FCC / IC Identification Label

A representative image of the FCC / IC Identification label is shown below. This label is generated as part of the standard manufacturing process and is printed in the factory.

Much of the information that is on the label, such as serial number, model number, etc. is driven by the ordering process and is unique per customer order.

FCC / IC Identification Label

FCC / IC ID Label

The rear view of the device shows various ports and connectors. On the left, there is a power jack, a USB port, and two Ethernet ports labeled '2' and '1'. In the center, there are two SMA connectors labeled 'Rx' and 'REF', an antenna connector labeled 'ANT', and a multi-pin connector labeled 'AUX'. A blue cable is connected to the 'ANT' port. On the right, there is a label with technical specifications and a warning symbol. An arrow points to the label.
