Subject:

Class II permissive change for **FCC ID: DD4AD1G57**

(Original Grant Date: 06/21/2017)

Applicant: Shure Incorporated

Dear Sirs,

This is to request a class II permissive change for **FCC ID: DD4AD1G57**, Original Grant Date: 06/21/2017

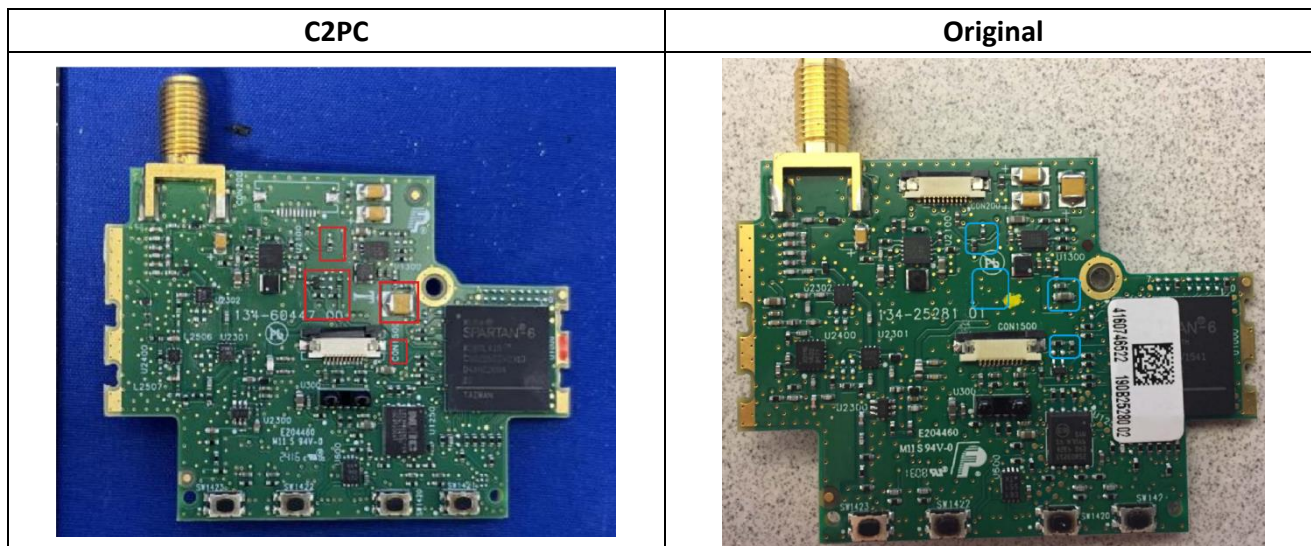

The major change filed under this application is as outlined below:

- Change amplifier from Avago MGA-30116 to Guerrilla RF GRF4014
- The new chip has the same basic function as the old chip.
- The new chip component is pin-for-pin compatible.
- No change in radio parameters has occurred.

In addition, the difference identified in the picture below between the AD1 C2PC PCB and AD1 Original PCB photos show an update to support the Microprocessor functionality. The component location and updates were changed so that the Microprocessor can operate efficiently and did not include any components related to the RF signal path of the AD1.
