

## Declaration of Similarity

17 January 2025

**FCC ID:** 2AD8UASOGHWIFI-01

**PMN:** AirScale System Module Core Unit    **HVIN:** ASOG/ASOH    **IC:** 109D-ASOGHWIFI01

**HMN:** N/A

**FVIN:** 25R2

We, **Nokia Solutions and Networks OY**, hereby declares that following products:

- ASOG
- ASOH

Have the following differences: the ASOG and ASOH core units, introduced by the ASOG Core Unit and ASOH Core Unit features, are fully integrated SMs. ASOG supports processing GSM or WCDMA (ports 13-15 only), LTE, and 5GNR processing, while ASOH supports only LTE and 5GNR (don't have ports 13-15).

The models are identical from the RF point of view, and the differences described above, and detailed stated in the internal document "ASOG and ASOH Version Differences" do not lead to different RF performance or behavior between the devices.
