折后尺寸：60*95mm

Power Bank

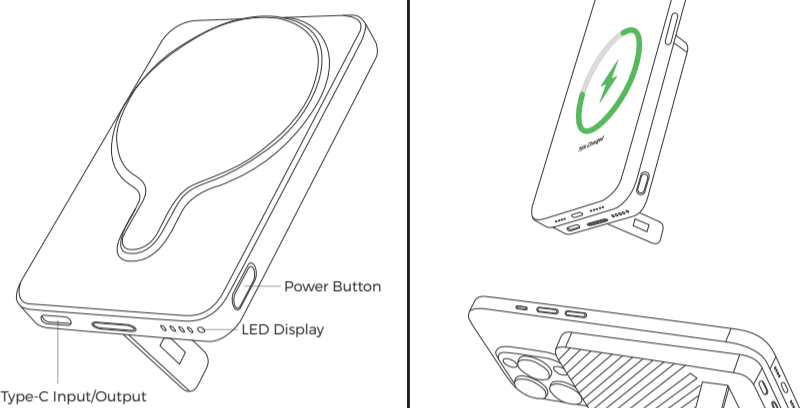

B2

USER GUIDE

Please read the user Manual thoroughly before use and keep it for future reference.

Product overview

Power Button

LED Display

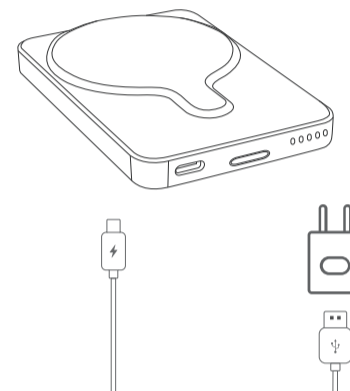

Type-C Input/Output

Specification

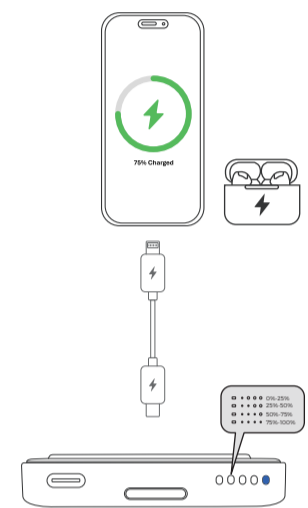

Model	B2
Capacity	5000mAh/3.85V 19.25Wh
Input Type-C	5V/3A, 9V/2A
Output Type-C	5V/3A, 9V/2.22A, 12V/1.67A
Wireless Charging Output	15W (Max)
Size	98.46x65.16x13.39mm 3.88x2.57x0.527"
Weight	123g/0.271lb

Charging the power bank

Please read the following type-C port of the power bank, the other side into the charger.

Charging your devices

Wireless Charging LED

Safety instructions

Please read the following safety instructions carefully before using this product:

- Store the product in a cool, dry place.
- Do not store the product in a hot or humid environment.
- Use of non-recommended power supply or charger may result in a risk of fire or injury to persons.
- Operating temperature should be between 0°C to 40°C/ 32°F to 104°F.
- Do not disassemble the product. Take it to a qualified service person when service or repair is required. Incorrect reassembly may result in a risk of fire or injury to persons.
- If the product is not used for long periods of time, you should discharge and recharge it once every three months.
- When charging a device, the product may get warm. This is a normal phenomenon and should not be a cause for concern.
- In normal conditions, the battery performance will decline over several years.
- Do not dispose of the product in heat or fire.
- Do not clean the product with harmful chemicals or detergents.
- Misuse, dropping, or excessive force may cause the product damage.
- When disposing of secondary cells or batteries, keep cells or batteries of different electrochemical systems separate from each other.
- Be aware that a discharge battery may cause fire or smoke. Tape the terminals to insulate them.

Caution

DO NOT expose to liquids.

DO NOT allow children to handle the battery.

DO NOT expose the battery to rain or snow.

DO NOT disassemble the product in any way.

DO NOT impact, throw or shock the power bank.

DO NOT use the battery in excess of its output rating.

DO NOT use the battery that is damaged or modified.

DO NOT store the battery together with metal objects.

DO NOT expose battery to fire or excessive temperature.

DO NOT dispose of used battery packs in trash or by burning.

DO NOT pierce the product shell with nails or other sharp objects.

To preserve lifespan, recharge every 3 months.

Avoid dropping.

Avoid extreme temperatures.

FCC Warnings

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. The device has been evaluated to meet general RF exposure requirement. The device has evaluated to meet general RF exposure requirement. The device can be used in portable exposure without restriction.
