

Letter for Model Differences

Date: May 13, 2024

Letter for Model Differences

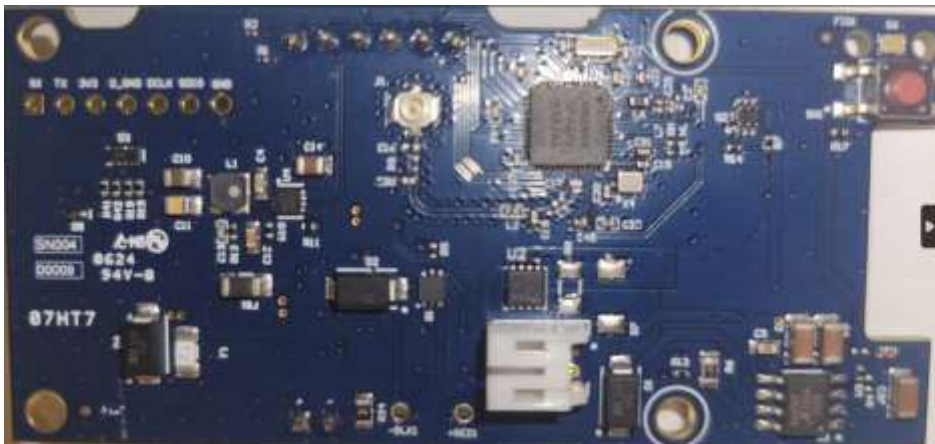

Models: 1016000012, 1016000022, 1016000037
FCC ID: UXUMOTG3A

The differences between the models listed here above are the following:

1. PCB layout – the arrangement of the component placement is different. Note: the components are always the same.

Other than the above mentioned differences, these models are electrically identical.
