

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of a small electronic device (EUT) housed in a pink plastic casing. The device is placed next to a black ruler for scale. The ruler has markings in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The device consists of a green printed circuit board (PCB) with various electronic components, including a large circular component (likely a speaker or microphone) and a smaller component (likely a battery or capacitor). The pink plastic housing is open, revealing the internal components.
Solder Board-Component View 1	 A photograph showing a close-up view of the green printed circuit board (PCB) with various electronic components. The device is placed next to a black ruler for scale. The ruler has markings in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The components include a large circular component (likely a speaker or microphone) and a smaller component (likely a battery or capacitor). The solder joints are visible on the PCB.
