

Other information

1. Actual frequencies for each channel:

CH	Frequency	CH	Frequency
1	905.728MHz	6	915.968MHz
2	907.776MHz	7	918.016MHz
3	909.824MHz	8	920.064MHz
4	911.872MHz	9	922.112MHz
5	913.920MHz	10	924.160MHz

2. Chipping rate: 1.366 M cps

3. Antenna Gain for both the Base unit and Handset:

Gain respect to isotropic
Base unit: + 3.34 dBi
Handset : + 1.74 dBi

Note that antenna gain measurement were conducted based on substitution method using with dipole antenna.

4. Processing Gain: Please see attached documents.
