Solder
Board-Component
View 1

Solder Board-Component View 2	 A photograph of a green printed circuit board (PCB) populated with various electronic components, including integrated circuits, resistors, and capacitors. The board is positioned next to a black L-shaped ruler for scale. The ruler has white markings in millimeters and centimeters. The board is oriented vertically, with the ruler's vertical edge on the left and the horizontal edge at the bottom.
Solder Board-Component View 3	 A photograph of a green printed circuit board (PCB) populated with various electronic components, including integrated circuits, resistors, and capacitors. The board is positioned next to a black L-shaped ruler for scale. The ruler has white markings in millimeters and centimeters. The board is oriented vertically, with the ruler's vertical edge on the left and the horizontal edge at the bottom.

Solder Board-Component View 4	 A photograph of a small green printed circuit board (PCB) with several electronic components, including resistors and capacitors. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The board is oriented vertically, and the ruler is placed horizontally next to it.
Solder Board-Component View 5	 A photograph of a larger green printed circuit board (PCB) with numerous electronic components, including capacitors, resistors, and integrated circuits. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The board is oriented vertically, and the ruler is placed horizontally next to it.
