Description of model difference - FCC ID: UYW-4180051

The Chronos AtoN consists of 2 physical enclosures.

1. Chronos AtoN Type 1&3
2. Chronos Sensor (optional)
3. Product which consists of the following software controlled variations:

Chronos	Configuration-
	<i>Type 1 with Sensor enabled</i>
	<i>Type 1 with Sensor removed</i>
	<i>Type 3 with Sensor enabled</i>
	<i>Type 3 with Sensor removed</i>

1. Difference between products

SRT Marine Technology Ltd declares that the difference between the products listed above is software related and the plug in of the optional sensor unit. When the sensor unit is in use, configuration enables the sensor unit, when the sensor unit is not used; this function is not configured, depending upon the customer requirements.

All testing was carried out with the sensor unit fitted and activated.

Yours Sincerely

Richard McMahon
