CW120

Smart magnetic wireless charger

Thank you for choosing our digital products. This product is a smart magnetic wireless charger that allows you to easily experience the fun of magnetic alignment wireless charging. Please read the instruction carefully before using this product and save it for future use.

Product List

Magnetic Charger *1
User Manual *1

Product parameter

Input voltage:(compatible with QC/AFC/PD protocol)
5V/2A-9V/2.22A
Output power:(automatic mobile phone adaptation):
5W-7.5W-10W-15W
Output current:1A-1.67A
Output voltage:5-9V
7.5W maximum efficiency:76%
Charging distance:5mm

Charging method:

Magnetic alignment, electromagnetic induction
Working frequency:110-205KHZ

Precautions

1. Please use a qualified PD protocol or QC protocol power charger, otherwise it may cause unstable charging or abnormal flicker;
2. If you need to use a protective case for your iPhone12/13/14 during the charging, please use one with Magsafe;

3. Do not use a mobile phone protective shell with metal back or a mobile phone protective shell with a thickness greater than 4mm;

4. The receiving coil of a mobile phone that supports wireless charging is generally located at the center of the mobile phone. Please place the center of the mobile phone at the center of the charging board to get a better charging experience;

5. Do not put metal debris or magnetic cards on the charging board, which may cause metal hair, magnetic card damage, charger damage or other abnormalities;

6. If the receiving coil or the transmitting board is overheated and the charging stops during the use, please remove the charging device, After waiting to cool down, and try charging again.

Safety notice

1. Do not pull the power cord violently to avoid the power cord from breaking or falling off.
2. Do not disassemble CW120 by yourself or throw it into Dre or water to avoid short circuit and electric leakage.
3. Do not use CW120 in severe high temperature, humidity or corrosive environment to avoid electric leakage caused by circuit damage.

Thank you for purchasing our CW120 wireless charger. In order to ensure you get reliable after-sales service, please read the following warranty instructions carefully.

Warranty scope

This product fails to work normally or malfunctions during normal use, and once our company confirmed, then can enjoy the company's after-sales service commitment.

Thank you for choosing us!

FCC STATEMENT :

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

--Reorient or relocate the receiving antenna.

--Increase the separation between the equipment and receiver.

--Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

--Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. During the operation of device a distance of 15 cm surrounding the device and 20 cm above the top surface of the device must be respected.
