Dear Mr. Rodriguez,

Please find attached our response according to your question.

1. Filing does not include any information or frequency listing for Part 20 Signal Booster (CMRS) equipment classification. Therefore references to Part 20 in the user manual and the statement "This repeater can be operated as both a Part 20 and/or Part 90 Class B repeater" are not appropriate and should be removed from user manual.

Response: [The user manual was adjusted, please refer to page IV in the file "User_manual_25633_rev2" uploaded on Oct.1, 2014.](#)
