SM2408 Film Cutting Machine

SM-2408 Product Manual

Product List

Blade holder, Blade, Power Adapter, Power Cable

Appearance and function

Carriage head, Blade holder, Power button, Start button, Operation display screen, Auto feed sensor, Feed part, USB port, USB data port

Product parameters

control panel	2.4 TFT B0E IPS, 240(RGB)X320 DOTS
Bluetooth	Bluetooth 5.0
Maximum cutting pressure	500g
Maximum feed width	200mm
Maximum cutting width	180mm
Cutting accuracy	0.1mm
Repeatability	0.05mm
power	48W
Power adapter	Input: AC100-240V, Output: DC24V 2.5A
size	305x173x137mm
weight	3.2kg

Instructions

Install the blade holder

Tip: The blade will gradually become dull when use, which affects the cutting quality. It is recommended to replace it in time.

Notice

Warning: This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:—Reorient or relocate the receiving antenna.—Increase the separation between the equipment and receiver.—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.—Consult the dealer or an experienced radio/TV technician for help. RF Exposure Statement: To maintain compliance with FCC's RF Exposure guidelines, this equipment should be installed and operated with minimum distance of 20cm between the radiator and your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

Power connection, Starting up

Please use AC 100-240V; connect the adapter and power cord, and connect the other end of the power cord to AC 100-240V; the adapter's DC output line plug is connected to the input port of the film cutter. Install the blade holder to make sure it is fixed at the right position of the carriage head. After the connection and installation are completed, press the power button to start the device.

Bluetooth connection

Log in to the app page, the app will prompt to turn on Bluetooth, enter the interface, click on the function bar "Mine" to enter the operating platform, click on "My device" to enter the link Bluetooth page.
